Looks like this dealer serviced the car in order to prepare it for sale. That's a good thing!

This vehicle's oil change history, as reported to CARFAX, follows the manufacturer's recommendation. Track your service history for free at carfax.com/service.

Have Questions? Consumers, please visit our Help Center at www.carfax.com. Dealers or Subscribers, please visit our Help Center at www.carfaxonline.com.

Glossary

CARFAX Well Maintained - Regular Oil Changes

CARFAX identifies a "Well Maintained - Regular Oil Change" vehicle as having a regular oil change history when all its recommended oil changes, based on the vehicle's maintenance schedule, have been reported to CARFAX. CARFAX uses the manufacturer's schedule and assumes normal driving conditions. When an oil change schedule is not available, CARFAX may analyze reported service events to determine what is typical for the same make and model vehicle. Dealers and service shops may publish different recommended service schedules.

Certified Pre-Owned Vehicle

Certified Pre-Owned Vehicles (CPOs) are used vehicles that meet the certification criteria established by the manufacturer. Although each manufacturer establishes its own criteria to certify a vehicle, manufacturers typically certify recent model year vehicles with low mileage. CPO vehicles typically undergo a comprehensive inspection and come with a manufacturer-backed warranty and require a vehicle history report as part of the certification process.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

AS IS - NO DEALER WARRANTY

THE DEALER DOES NOT PROVIDE A WARRANTY FOR ANY REPAIRS AFTER SALE.

DEALER WARRANTY

FULL WARRANTY.

LIMITED WARRANTY. The dealer will pay ____% of the labor and ____% of the parts for the covered systems that fail during the warranty period. Ask the dealer for a copy of the warranty, and for any documents that explain warranty coverage, exclusions, and the dealer's repair obligations. *Implied warranties* under your state's laws may give you additional rights.

SYSTEMS COVERED:

The manufacturer's original warranty has not yet expired on this vehicle. Consult the manufacturer's warranty booklet for details as to warranty coverage, service location, etc.

DURATION:

The dealership itself assumes no responsibility for any repairs regardless of any oral statement made about the vehicle. All warranty coverage comes from the unexpired manufacturer's warranty.

NON-DEALER WARRANTIES FOR THIS VEHICLE:

MANUFACTURER'S WARRANTY STILL APPLIES. The manufacturer's original warranty has not expired on some components of the vehicle.

MANUFACTURER'S USED VEHICLE WARRANTY APPLIES.

OTHER USED VEHICLE WARRANTY APPLIES.

Ask the dealer for a copy of the warranty document and an explanation of warranty coverage, exclusions, and repair obligations.

SERVICE CONTRACT. A service contract on this vehicle is available for an extra charge. Ask for details about coverage, deductible, price, and exclusions. If you buy a service contract within 90 days of your purchase of this vehicle, *implied warranties* under your state's laws may give you additional rights.

ASK THE DEALER IF YOUR MECHANIC CAN INSPECT THE VEHICLE ON OR OFF THE LOT.

OBTAIN A VEHICLE HISTORY REPORT AND CHECK FOR OPEN SAFETY RECALLS. For information on how to obtain a vehicle history report, visit ftc.gov/usedcars. To check for open safety recalls, visit safercar.gov. You will need the vehicle identification number (VIN) shown above to make the best use of the resources on these sites.

SEE OTHER SIDE for important additional information, including a list of major defects that may occur in used motor vehicles.

2022 Jeep Grand Cherokee L Review

 By Colin Ryan ⓘ
Updated January 14, 2022

Pros

- Three seating rows
- 4-wheel drive is available
- Jeep style
- Impressive towing stats
- V8 engine's muscle

Advertisement

Cons

- Higher trims reach luxury prices
- V8 engine's dismal fuel economy
- When is that hybrid version coming?

What's New?

- No major changes

Price: The 2022 Jeep Grand Cherokee L starts at \$38,890.

The 2022 Jeep Grand Cherokee L is a 3-row [midsize SUV](#). And we're more inclined to say SUV than mere crossover, since this is a [Jeep](#). Which means it offers 4-wheel-drive systems that are more adept than most at tackling tricky

That doesn't mean clumsy manners on the tarmac, however. If it never went further off-road than a suburban driveway, the Grand Cherokee L would still be an excellent family vehicle with many convenience features, plentiful safety equipment, and an agreeable on-road demeanor.

Now in the second year of its existence, the Grand Cherokee L has fresh technology and equally fresh looks. It was the first variant of a new Grand Cherokee generation (the fifth), with the 2-row version making its debut for the 2022 model year.

The regular, 2-row Grand Cherokee is [reviewed separately](#).

2022 Jeep Grand Cherokee L Pricing

2022 Jeep Grand Cherokee L pricing starts at \$27,234 for the Grand Cherokee L Laredo Sport Utility 4D, which had a starting MSRP of \$42,120 when new. The range-topping 2022 Grand Cherokee L Summit Reserve Sport Utility 4D starts at \$41,160 today, originally priced from \$68,575.

	Original MSRP	KBB Fair Purchase Price (nat'l average)
Laredo Sport Utility 4D	\$42,120	\$27,234
Altitude Sport Utility 4D	\$49,225	\$30,627
Limited Sport Utility 4D	\$50,440	\$30,649
Overland Sport Utility 4D	\$60,035	\$34,686
Summit Sport Utility 4D	\$64,095	\$36,378
Summit Reserve Sport Utility 4D	\$68,575	\$41,160

The Kelley Blue Book Fair Purchase Price for any individual used vehicle can vary greatly according to mileage, condition, location, and other factors. The prices here reflect what buyers are currently paying for used 2022 Jeep Grand Cherokee L models in typical condition when purchasing from a dealership. These prices are updated weekly.

Driving The Jeep Grand Cherokee L

The standard 293-horsepower V6 in the 2022 Grand Cherokee L is one of the more powerful in this midsize 3-row SUV class. The V8 is a rarity outside of the luxury realms, making a meaty 357 horsepower. Then again, one of the higher trims with the V8 is approaching luxury prices.

Any gripes tend to evaporate, though, once behind the wheel and enjoying the raised driving position. The ride quality is family friendly, the handling is up to the task keeping this approximately 2.5-ton machine composed, and the brakes feel confident.

It's doubtful that many owners will start trekking into the wilderness with their new Grand Cherokee L, but an array of optional 4-wheel drive setups could certainly facilitate that. Such a system is good to have in bad weather, anyway. As standard, the Jeep Grand Cherokee L is rear-wheel drive.

There's one feature that makes on-road driving even easier: Active Driving Assist. Drivers must still keep their hands on the wheel and their eyes on the road, but this blends adaptive cruise control with next-level lane centering. It's optional in the Overland and standard in the Summit.

Interior Comfort

Seating for six is the norm in the 2022 Grand Cherokee L, with a pair of individual seats in the second row. A three-position bench is a no-cost option, however, for anyone who wants accommodation for seven.

Comparing the L with the regular Grand Cherokee, this longer model has about an inch more rear legroom in the second row — a generous 39.4 inches. And, of course, there's a third seating row in the L, with 30.3 inches of legroom. That's fine for kids, less bearable for anyone taller. These third-row seats split in a 50/50 fashion, with the top trims bringing a power-fold function.

The L's cargo space is also greater. There's 17.2 cubic feet behind the third row. Fold them down to create 46.9 (compare that with the regular Grand Cherokee's 37.7). Drop down the second-row seats as well for a maximum

Up front is a standard-issue configurable digital driver information display. When the optional 10.1-inch infotainment touchscreen is also installed, the cabin creates an especially pleasing mix of comfort and technology. The priciest Summit Reserve model is naturally the most indulgent, with diamond-stitched leather upholstery and walnut wood trim.

Exterior Styling

Arguably handsome, the 2022 Grand Cherokee L is 17 feet in length, 11.4 inches longer than a non-L Grand Cherokee, with a wheelbase (the distance between the axles) that's 5 inches longer. This bigger body doesn't look in the least bit ungainly.

Every version has roof rails. The Laredo has the option of a single-pane sunroof, while a dual-pane panoramic sunroof is optional with the Limited mode, standard in the higher trims. Alloy wheel sizes run from 18 to 21 inches.

Generally speaking, the Grand Cherokee L keeps things pretty classy. The wildest it gets is a gloss black contrasting roof that's an option with the Overland or standard on the Summit.

Favorite Features

TECHNOLOGY

Jeep has forged its considerable reputation by making rugged, off-road-capable vehicles. If we think of Jeep software, it might be deliberately under-inflated tires for going over rocks, instead of up-to-the-minute tech features. The 2022 Grand Cherokee L can still wade through two feet of water, but it also offers many driver-assistance features, ambient cabin lighting, wireless charging, self-parking, and several other smart features.

MCINTOSH AUDIO

Anyone who hasn't heard of McIntosh audio equipment should do a quick Google. It's seriously high-end stuff and priced accordingly. Now the company is making systems for Jeep, available in the top trims of the 2022 Grand Cherokee L.

Standard Features

Driving a Laredo down the streets entails 18-inch alloy wheels, LED headlights/taillights, 10.25-inch digital driver information display, 8-way power-adjustable front seats, cloth upholstery, leather-wrapped steering wheel, and 3-zone automatic climate control.

Safety features include full-speed forward-collision warning with automatic emergency braking and pedestrian/cyclist detection, blind-spot monitoring with rear cross-path detection, rear parking sensors with automatic braking, lane-keeping assistance, and adaptive cruise control with stop/go.

The infotainment system has an 8.4-inch touchscreen, wireless Apple CarPlay/Android Auto smartphone integration, Amazon Alexa compatibility, satellite radio, 12 USB ports distributed around the cabin (including Type-C), voice control, over-the-air updates, and six speakers.

Factory Options

Altitude builds on the Laredo model with 20-inch alloy wheels, rain-sensing wipers, remote start, heated front seats, heated steering wheel, 115-volt outlet, wireless charging, and a powered liftgate.

Limited trim adds automatic high beams, LED fog lights, leather seating surfaces, memory settings for the front seats, heated second-row seats, self-dimming rearview mirror, and a garage door opener.

Overland brings an adaptive suspension, hands-free liftgate operation, puddle lights, front parking sensors, self-dimming/auto-tilt driver's-side mirror, dual-pane panoramic sunroof with powered shade, 20-inch alloy wheels, perforated Nappa leather seating surfaces, heated/ventilated front seats, power-adjustable steering column, 5-color ambient cabin lighting, wood trim, navigation, and a 9-speaker/506-watt Alpine audio system.

Some of these items are optional in the Limited model. The Overland also qualifies for the V8 engine, off-road tires and a more specialized 4-wheel-drive system, 4-zone automatic climate control, massaging front seats, 360-degree camera system, intersection assistance, Active Driving Assist, and a 10.1-inch infotainment touchscreen.

Summit trim is eligible for the V8, while coming standard with 12-way power-adjustable front seats, a self-parking feature for parallel and perpendicular spaces, and most of the aforementioned Overland options.

camera, night vision (infrared camera images in the infotainment screen), and a head-up display.

Summit Reserve has 21-inch alloy wheels, diamond-stitched Palermo leather seating surfaces, walnut wood trim, heated/ventilated second-row seats, and a 19-speaker/950-watt McIntosh audio system.

A trailer tow package with 4-pin/7-pin harness and Class IV hitch receiver is optional in rear-drive Overland and Summit models, standard in those top two versions with 4-wheel drive.

Engine & Transmission

The standard engine of the 2022 Grand Cherokee L lineup is a 3.6-liter V6. It's a well-used and well-liked unit, deployed in many Jeep/Chrysler/Dodge vehicles. Output is 293 horsepower and 260 lb-ft of torque.

Overland and Summit trims offer the option of a 5.7-liter V8 developing 357 horsepower and 390 lb-ft of torque. The V6 is fine with regular 87-octane gasoline; the V8 requires 89-octane.

Either way, an 8-speed automatic transmission is the next carriage in the powertrain. Rear-wheel drive (RWD) is the basic setup with the V6, with 4-wheel drive (4WD) as an option. The V8 doesn't offer that choice — it's 4-wheel drive all the way.

These fuel economy estimates from the Environmental Protection Agency relate to 2021, but 2022's should be the same.

3.6-liter V6
 293 horsepower @ 6,400 rpm
 260 lb-ft of torque @ 4,000 rpm

KBB Vehicle Review And Rating Methodology

Our Expert Ratings come from hours of both driving and number crunching to make sure that you choose the best car for you. We comprehensively experience and analyze every new SUV, car, truck, or minivan for sale in the U.S. and compare it to its competitors. When all that dust settles, we have our ratings.

We require new ratings every time an all-new vehicle or a new generation of an existing vehicle comes out. Additionally, we reassess those ratings when a new-generation vehicle receives a mid-cycle refresh — basically, sprucing up a car in the middle of its product cycle (typically, around the 2-3 years mark) with a minor facelift, often with updates to features and technology.

Rather than pulling random numbers out of the air or off some meaningless checklist, KBB's editors rank a vehicle to where it belongs in its class. Before any car earns its KBB rating, it must prove itself to be better (or worse) than the other cars it's competing against as it tries to get you to spend your money buying or leasing.

Our editors drive and live with a given vehicle. We ask all the right questions about the interior, the exterior, the engine and powertrain, the ride and handling, the features, the comfort, and of course, about the price. Does it serve the purpose for which it was built? (Whether that purpose is commuting efficiently to and from work in the

We take each vehicle we test through the mundane — parking, lane-changing, backing up, cargo space and loading — as well as the essential — acceleration, braking, handling, interior quiet and comfort, build quality, materials quality, reliability.

Basic

Some ratings use a scale of Poor to Good. Others range from Basic to Superior.

Small overlap front: driver-side

Rating applies to 2021-25 models

Tested vehicle: **2022 Jeep Grand Cherokee L Laredo 4-door 4wd**

The Jeep Grand Cherokee L, a 3-row version of the Grand Cherokee, was introduced in the 2021 model year and the 2-ro Jeep Grand Cherokee was redesigned for the 2022 model year.

G

Action shot taken during the driver-side small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test

indicates that the driver's survival space was maintained very well.

The frontal and side curtain airbags worked well together to keep the head from coming close to any stiff structure or outside objects that could cause injury.

The driver's space was maintained well, and risk of injuries to the dummy's legs and feet was low.

The Jeep Grand Cherokee L, a 3-row version of the Grand Cherokee, was introduced in the 2021 model year and the 2-row Jeep Grand Cherokee was redesigned for the 2022 model year. Beginning with 2022 models, modifications were made to the front passenger-side carpet pad to improve occupant safety in passenger-side small overlap crashes. Passenger-side small overlap frontal ratings are assigned by the Institute based on a test of a 2022 Jeep Grand Cherokee L conducted by Stellantis.

View of the vehicle after the crash showing the airbags and damage to the occupant compartment.

The rear passenger dummy's head approached the front seatback, which increases the risk of head injuries.

Rear passenger dummy injury values indicate a likely risk of injury to the head or neck and chest. During the crash, the shoulder belt remained in an ideal position on the dummy's chest.

The rear passenger dummy's lap belt remained in the ideal position on the pelvis.

Headlights

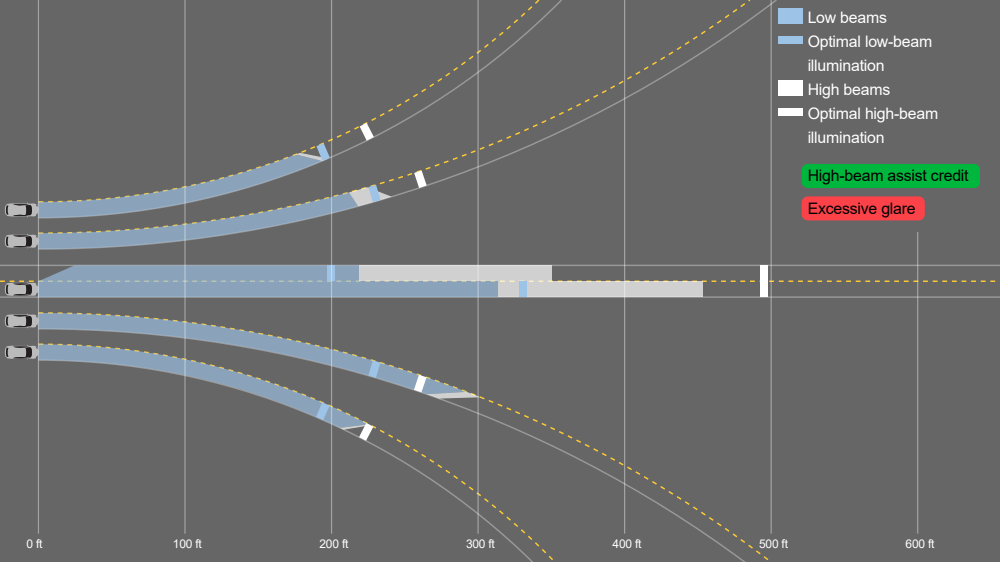

Ratings are given for **2 different headlight variations** available on this vehicle.

Trim level(s)

▶ Limited trim ▶ Overland trim ▶ Summit trim

Low-beam headlight type	LED reflector
High-beam headlight type	LED reflector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	P

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was good in all 4 tests.

The low beams created excessive glare.

High beams

On the straightaway, visibility was fair on the right side of the road and inadequate on the left side. On curves, visibility was good on both right curves and fair on both left curves.

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and on both left curves.

Front crash prevention: vehicle-to-vehicle

System details

- ▶ standard Full Speed Forward Collision Warning Plus

Overall evaluation

Applies to 2022-23 models **SUPERIOR**

- ▶ This system meets the requirements for forward collision warning.
- ▶ In the 12 mph test, this vehicle avoided a collision.
- ▶ In the 25 mph test, impact speed was reduced by 24 mph.

Front crash prevention: pedestrian (day)

System details

- ▶ standard Full Speed Forward Collision Warning Plus

Overall evaluation

This rating applies to all 2022-25 models **ADVANCED**

Crossing child

- ▶ In the 12 mph test, this vehicle avoided a collision.
- ▶ In the 25 mph test, impact speed was reduced by 11 mph.

Crossing adult

- ▶ In the 12 mph test, this vehicle avoided a collision.
- ▶ In the 25 mph test, this vehicle avoided a collision.

Parallel adult

- ▶ In the 25 mph test, this vehicle avoided a collision.
- ▶ In the 37 mph test, impact speed was reduced by 36 mph. A warning was issued 2.2 seconds before impact.

Front crash prevention: pedestrian (night)

Ratings are given for **2 different systems** available on this vehicle.

Night

System details

- ▶ standard Full Speed Forward Collision Warning Plus

Overall evaluation

Includes high-beam assist credit **SUPERIOR**

This rating applies to 2022-25 models
of the following trim lines: Limited trim,Overland trim,Summit trim,Summit trim
equipped with Summit Reserve package,Summit trim equipped with Altitude package

Crossing adult

- ▶ In the 12 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.
- ▶ In the 25 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.

Parallel adult

- ▶ In the 25 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.
- ▶ In the 37 mph test, impact speed was reduced by 33 mph when using its high beams and a warning was issued 2 seconds before impact. When using its low beams, impact speed was reduced by 28 mph and a warning was issued 1.6 seconds before impact.

Night

System details

- ▶ standard Full Speed Forward Collision Warning Plus

Overall evaluation

This rating applies to all 2022-24 models

SUPERIOR

Crossing adult

- ▶ In the 12 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.
- ▶ In the 25 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.

Parallel adult

- ▶ In the 25 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.
- ▶ In the 37 mph test, impact speed was reduced by 33 mph when using its high beams and a warning was issued 2 seconds before impact. When using its low beams, impact speed was reduced by 28 mph and a warning was issued 1.6 seconds before impact.

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by [these auto insurers and insurance associations](#).
