## CARFAX Glossary

### Certified Pre-Owned Vehicle

Certified Pre-Owned Vehicles (CPOs) are used vehicles that meet the certification criteria established by the manufacturer. Although each manufacturer establishes its own criteria to certify a vehicle, manufacturers typically certify recent model year vehicles with low mileage. CPO vehicles typically undergo a comprehensive inspection and come with a manufacturer-backed warranty and require a vehicle history report as part of the certification process.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

## WARRANTIES FOR THIS VEHICLE:

Stock #: 1C250708A

### AS IS - NO DEALER WARRANTY

THE DEALER DOES NOT PROVIDE A WARRANTY FOR ANY REPAIRS AFTER SALE.

### DEALER WARRANTY

FULL WARRANTY.

LIMITED WARRANTY. The dealer will pay \_\_\_\_ % of the labor and \_\_\_\_ % of the parts for the covered systems that fail during the warranty period. Ask the dealer for a copy of the warranty, and for any documents that explain warranty coverage, exclusions, and the dealer's repair obligations. *Implied warranties* under your state's laws may give you additional rights.

#### SYSTEMS COVERED:

The manufacturer's original warranty has not yet expired on this vehicle. Consult the manufacturer's warranty booklet for details as to warranty coverage, service location, etc.

#### DURATION:

The dealership itself assumes no responsibility for any repairs regardless of any oral statement made about the vehicle. All warranty coverage comes from the unexpired manufacturer's warranty.

## NON-DEALER WARRANTIES FOR THIS VEHICLE:

MANUFACTURER'S WARRANTY STILL APPLIES. The manufacturer's original warranty has not expired on some components of the vehicle.

MANUFACTURER'S USED VEHICLE WARRANTY APPLIES.

OTHER USED VEHICLE WARRANTY APPLIES.

Ask the dealer for a copy of the warranty document and an explanation of warranty coverage, exclusions, and repair obligations.

SERVICE CONTRACT. A service contract on this vehicle is available for an extra charge. Ask for details about coverage, deductible, price, and exclusions. If you buy a service contract within 90 days of your purchase of this vehicle, *implied warranties* under your state's laws may give you additional rights.

## ASK THE DEALER IF YOUR MECHANIC CAN INSPECT THE VEHICLE ON OR OFF THE LOT.

**OBTAIN A VEHICLE HISTORY REPORT AND CHECK FOR OPEN SAFETY RECALLS.** For information on how to obtain a vehicle history report, visit [ftc.gov/ususedcars](http://ftc.gov/ususedcars). To check for open safety recalls, visit [safercar.gov](http://safercar.gov). You will need the vehicle identification number (VIN) shown above to make the best use of the resources on these sites.

**SEE OTHER SIDE for important additional information, including a list of major defects that may occur in used motor vehicles.**

## 2022 Jeep Grand Cherokee Review

By Jason Allan [\(1\)](#)

Updated May 03, 2022

### Pros

- Class-above interior
- Famously capable
- Iconic

Advertisement

### Cons

- A bit smaller inside than other 2-row midsize SUVs
- History of mediocre resale value

### What's New?

- Totally redesigned for 2022
- First-ever plug-in hybrid version
- First-ever 3-row model

Jeep's legendary **midsize SUV** offers a combination of capability and sophistication unmatched by anything else in the segment.

Equal parts rugged adventurer and stylish sanctuary, there's still no other SUV quite like the Jeep Grand Cherokee.

Totally redesigned and now available with a plug-in hybrid powertrain (the forthcoming **Grand Cherokee 4xe**) or

Here we review the familiar 2-row, V6- or V8-powered 2022 Jeep Grand Cherokee, with a focus on the two most popular trims, Laredo and Limited.

## 2022 Jeep Grand Cherokee Pricing

2022 Jeep Grand Cherokee pricing starts at \$24,733 for the Grand Cherokee Laredo E Sport Utility 4D, which had a starting MSRP of \$37,460 when new. The range-topping 2022 Grand Cherokee All New Summit Reserve Sport Utility 4D starts at \$39,418 today, originally priced from \$66,575.

	Original MSRP	KBB Fair Purchase Price (nat'l average)
<a href="#">Laredo E Sport Utility 4D</a>	\$37,460	\$24,733
<a href="#">All New Laredo Sport Utility 4D</a>	\$40,120	\$25,690
<a href="#">Laredo X Sport Utility 4D</a>	\$42,985	\$27,140
<a href="#">Limited Sport Utility 4D</a>	\$45,555	\$26,772
<a href="#">All New Altitude Sport Utility 4D</a>	\$47,225	\$28,169
<a href="#">All New Limited Sport Utility 4D</a>	\$48,440	\$29,567
<a href="#">All New Trailhawk Sport Utility 4D</a>	\$56,030	\$32,589
<a href="#">All New Overland Sport Utility 4D</a>	\$58,035	\$34,964
<a href="#">All New Summit Sport Utility 4D</a>	\$62,095	\$38,220
<a href="#">All New Summit Reserve Sport Utility 4D</a>	\$66,575	\$39,418

The Kelley Blue Book Fair Purchase Price for any individual used vehicle can vary greatly according to mileage, condition, location, and other factors. The prices here reflect what buyers are currently paying for used 2022 Jeep Grand Cherokee models in typical condition when purchasing from a dealership. These prices are updated weekly.

## Driving The Jeep Grand Cherokee

The Jeep Grand Cherokee delivers a more visceral driving experience than most other midsize SUVs. The ride is a bit firmer. The steering is a little heavier. The Grand Cherokee feels more capable because it is more capable.

The V6 engine and 8-speed automatic transmission deliver power and acceleration on par with others in the class. The Grand Cherokee is also one of the few SUVs in the class to offer a V8 engine, but most buyers stick with the V6, and that's our recommendation. The V8 is quicker and offers a bit more towing capacity (7,200 pounds vs. 6,200), but it's costly overkill for most buyers. You'll pay more up front and burn more gasoline to the tune of an additional \$40 per month, conservatively.

## Interior Comfort

The Jeep Grand Cherokee's creamy center of an interior gets even richer in the new fifth-generation model, with materials and design that are a step above most everything else in its class. The Jeep comes up a bit short in passenger and cargo room compared to other SUVs in its class, but it still qualifies as roomy and comfortable.

## Exterior Styling

Jeep's designers nailed this redesign. The new model is at once instantly recognizable as a Grand Cherokee, but also decidedly more contemporary than the model it replaces. Sharp LED reflector headlights are standard across the lineup, as are low-profile LED taillights that impart a cleaner, wider look to the rear end.

## Favorite Features

### DIGITAL GAUGE CLUSTER, STANDARD

Every 2022 Jeep Grand Cherokee features a 10.25-inch digital gauge cluster. We love both the flexibility and contemporary feel of digital displays in place of traditional analog gauges.

steering in conditions ranging from stop-and-go traffic to full-speed road trips.

## Standard Features

The entry Jeep Grand Cherokee Laredo trim offers an impressive array of equipment for its \$37,785 starting price. In addition to the V6 engine, 8-speed automatic transmission, and rear-wheel drive (add \$2,000 for 4-wheel drive), a base Laredo includes an impressive new Uconnect 5 infotainment system with an 8.4-inch digital touchscreen, wireless Android Auto, wireless Apple CarPlay, Amazon Alexa compatibility, and over-the-air software updates.

The base model even includes adaptive cruise control with stop and go, plus active lane management, two of our favorite driving assistants. Every Grand Cherokee also features a customizable digital gauge cluster, blind-spot monitoring, and six USB ports.

## Factory Options

The 2022 Jeep Grand Cherokee's long list of higher-end upgrades includes a passenger-side touchscreen, air suspension, massaging front seats, ultra-premium McIntosh audio system, and a night vision camera. But the reality is that most Grand Cherokees will have none of those. More common upgrades include leather seats, a sunroof (single- or dual-pane varieties), a larger and more functional touchscreen infotainment system, and heated seats.

## Engine & Transmission

The new Grand Cherokee features the same engines as the last one, and that's mostly a good thing. There are newer, smoother, more efficient V6 engines in the segment, but there's much to be said for an engine that's proven. The V6 and V8 are both matched to a similarly seasoned 8-speed automatic transmission.

### 3.6-liter V6

293 hp @ 6,400 rpm

260 lb-ft of torque @ 4,000 rpm

EPA city/highway/combined fuel economy: 19/26/21 mpg (2WD), 18/25/21 mpg (4WD)

Max towing capacity: 6,200 lb

### 5.7-liter V8

357 hp @ 5,150 rpm

390 lb-ft of torque @ 4,250 rpm

## Why You Should Trust This Review

Jason Allan has been reviewing cars for more than 17 years and currently leads the incredible team behind all our reviews, ratings, and advice. In addition to spending hours behind the wheel of the all-new 2022 Jeep Grand Cherokee, he's driven virtually all the SUVs with which it compares. Our vehicle evaluations and recommendations are also informed by a range of historical and predicted industry data.

## KBB Vehicle Review And Rating Methodology

Our Expert Ratings come from hours of both driving and number crunching to make sure that you choose the best car for you. We comprehensively experience and analyze every new SUV, car, truck, or minivan for sale in the U.S. and compare it to its competitors. When all that dust settles, we have our ratings.

sprucing up a car in the middle of its product cycle (typically, around the 2-3 years mark) with a minor facelift, often with updates to features and technology.

Rather than pulling random numbers out of the air or off some meaningless checklist, KBB's editors rank a vehicle to where it belongs in its class. Before any car earns its KBB rating, it must prove itself to be better (or worse) than the other cars it's competing against as it tries to get you to spend your money buying or leasing.

Our editors drive and live with a given vehicle. We ask all the right questions about the interior, the exterior, the engine and powertrain, the ride and handling, the features, the comfort, and of course, about the price. Does it serve the purpose for which it was built? (Whether that purpose is commuting efficiently to and from work in the city, keeping your family safe, making you feel like you've made it to the top — or that you're on your way — or making you feel like you've finally found just the right partner for your lifestyle.)

We take each vehicle we test through the mundane — parking, lane-changing, backing up, cargo space and loading — as well as the essential — acceleration, braking, handling, interior quiet and comfort, build quality, materials quality, reliability.

## Small overlap front: driver-side

Rating applies to 2022-25 models

Tested vehicle: **2022 Jeep Grand Cherokee L Laredo 4-door 4wd**

The Jeep Grand Cherokee L, a 3-row version of the Grand Cherokee, was introduced in the 2021 model year and the 2-row Jeep Grand Cherokee was redesigned for the 2022 model year.

**G**

**Driver restraints and dummy kinematics**

**G**

Action shot taken during the driver-side small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was maintained very well.

The frontal and side curtain airbags worked well together to keep the head from coming close to any stiff structure or outside objects that could cause injury.

The driver's space was maintained well, and risk of injuries to the dummy's legs and feet was low.

Technical measurements for this test

Rating applies to 2013-22 models built after January 2013

Tested vehicle: 2014 Jeep Grand Cherokee Laredo E 4-door 4wd

The Jeep Grand Cherokee was redesigned for the 2011 model year. Beginning with 2013 models built after January 2013, the seat belts and airbags were modified to improve occupant protection in small overlap frontal crashes. (Information about when a specific vehicle was manufactured is on the certification label typically affixed to the car on the driver door or adjacent B-pillar.)

M

### Driver restraints and dummy kinematics

The dummy's movement was reasonably well controlled. The dummy's head remained largely in contact with the frontal airbag, but its head still moved toward the intruding A-pillar because the seat belt allowed excessive forward excursion of the dummy's head and torso. The side curtain airbag deployed but does not have sufficient forward coverage to protect the head from contact with forward side structure and outside objects. The side torso airbag deployed.

A

Action shot taken during the driver-side small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was not maintained well.

During the crash, the seat belt allowed the dummy to move too far forward, as is evident from the gap between the seat back and the dummy's torso. The side curtain airbag did not extend far enough forward toward the A-pillar.

Intrusion of the parking brake pedal, door hinge pillar, and instrument panel contributed to a significant risk of injury to the left lower leg.

Technical measurements for this test

## Small overlap front: passenger-side

**Rating applies to 2022-25 models**

Tested vehicle: **2022 Jeep Grand Cherokee L Limited 4-door 4wd**

The Jeep Grand Cherokee L, a 3-row version of the Grand Cherokee, was introduced in the 2021 model year and the 2-row Jeep Grand Cherokee was redesigned for the 2022 model year. Beginning with 2022 models, modifications were made to the front passenger-side carpet pad to improve occupant safety in passenger-side small overlap crashes. Passenger-side small overlap frontal ratings are assigned by the Institute based on a test of a 2022 Jeep Grand Cherokee L conducted by Stellantis.

Lower leg/foot	P

## Passenger restraints and dummy kinematics

The dummy's head loaded the frontal airbag, which stayed in front of the dummy until rebound. However, the side curtain airbag did not deploy and the front passenger door opened during the crash, which shouldn't happen because the passenger could be partly or completely ejected from the vehicle. In fact during rebound, the dummy's head moved outside the vehicle, leaving the head vulnerable to contact with side structure and outside objects.	P
--	---

<b>Driver injury measures</b>	
-------------------------------	--

Head/neck	G
Chest	G
Hip/thigh	G
Lower leg/foot	G

Action shot taken during the passenger-side small overlap frontal crash test.

The dummy's position in relation to the door frame and dashboard after the crash test indicates that the passenger's survival space was not maintained well.

The side curtain airbag did not deploy, uncommon for 2018 model year and later vehicles, and the dummy's head bottomed out the frontal airbag and hit the dashboard hard.

The passenger door opened during the crash test, and the dummy's head moved outside the vehicle during rebound.

Intrusion of the dashboard and door hinge pillar contributed to a likely risk of injury to the right lower leg.

Technical measurements for this test

## Moderate overlap front: original test

Rating applies to 2011-22 models

Tested vehicle: **2011 Jeep Grand Cherokee Laredo 4-door 4wd**

The Jeep Grand Cherokee was redesigned for the 2011 model year. Moderate overlap frontal ratings are assigned by the Institute based on a test conducted by Chrysler Corporation.

<b>Rear passenger injury measures</b>	
Head/neck	<b>P</b>
Chest	<b>P</b>
Thigh	<b>G</b>

View of the vehicle after the crash showing the airbags and damage to the occupant compartment.

The rear passenger dummy's head approached the front seatback, which increases the risk of head injuries.

Rear passenger dummy injury values indicate a likely risk of injury to the head or neck and chest. During the crash, the shoulder belt remained in an ideal position on the dummy's chest.

The rear passenger dummy's lap belt remained in the ideal position on the pelvis.

During rebound the rear passenger dummy's head moved outside of the side curtain airbag. The head protection is inadequate and puts the head at risk of possible contact with outside objects.

Technical measurements for this test

## Side: original test

**Rating applies to 2011-22 models**

Tested vehicle: **2011 Jeep Grand Cherokee Laredo X 4-door 4wd with standard front and rear head curtain airbags and standard front seat-mounted torso airbags**

The Jeep Grand Cherokee was redesigned for the 2011 model year.

Smeared greasepaint shows where the driver dummy's head was protected from being hit by hard structures by the side curtain airbag.

Smeared greasepaint shows where the rear passenger dummy's head was protected by the side airbag.

## Side: updated test

Rating applies to 2022-23 models built before April 2023

Tested vehicle: **2022 Jeep Grand Cherokee Trailhawk 4-door 4wd**

The Jeep Grand Cherokee (2-row) was redesigned for the 2022 model year. A fuel leak occurred during the crash test because the underbody adjacent to the fuel tank deformed, causing a sharp sheet metal edge to puncture the fuel tank. Stellantis has identified the issue and implemented structural modifications beginning with 2023 models built after March 2023 (Information about when a specific vehicle was manufactured is on the certification label typically affixed to the car on the driver door or adjacent B-pillar.)

## Headlights

Ratings are given for **2 different headlight variations** available on this vehicle.

### Trim level(s)

- ▶ Limited trim
- ▶ Trailhawk trim
- ▶ Overland trim
- ▶ Summit trim

**Low-beam headlight type** LED reflector

**High-beam headlight type** LED reflector

**Curve-adaptive?** No

**High-beam assist?** Yes

**Overall rating** P

**Distance at which headlights provide at least 5 lux illumination:**

## Low beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was good in all 4 tests.

The low beams created excessive glare.

## High beams

On the straightaway, visibility was fair on the right side of the road and inadequate on the left side. On curves, visibility was good on both right curves and fair on both left curves.

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and on both left curves.
