2021 Ford Bronco Sport Review

By **Allyson Harwood** ⓘ

Updated January 30, 2025

Pros

- Designed for outdoor adventure, with off-road chops
- Related to the new Bronco, with more mass appeal
- Clever interior has terrific storage solutions
- Advanced 4WD tech helps off-roaders of all abilities

Cons

- No two-wheel-drive models, which could hurt MPG
- Upper trim levels could get pricey

What's New?

- The Bronco Sport is an all-new model for 2021

The 2021 Ford Bronco Sport is the third model to join Ford's Bronco family of SUVs. Unlike the [Bronco 2- and 4-door](#), which are based on a truck platform, the Bronco Sport is based on a crossover SUV platform. This vehicle is smaller than the Escape and larger than the EcoSport, putting the Bronco Sport in the large subcompact SUV category. While some larger subcompact SUVs skew toward city life and errand-running, the Bronco Sport is designed for adventure. It has trail-tested off-road capability, up to 8.8 inches of ground clearance, a purpose-built interior.
