About AutoCheck

AutoCheck vehicle history reports by Experian Automotive is the leading vehicle history reporting service. With expert data handling, the Experian Automotive database houses over 4 billion records on a half a billion vehicles. Every AutoCheck vehicle history report will give you confidence when buying or selling your next used vehicle, with superior customer service every step of the way.

Patent Notice

Certain aspects of this vehicle history report may be covered by U.S. Patent 8,005,759.

Here is a list of some major defects that may occur in used vehicles.

Frame & Body

Frame-cracks, corrective welds, or rusted through
Dog tracks—bent or twisted frame

Engine

Oil leakage, excluding normal seepage
Cracked block or head
Belts missing or inoperable
Knocks or misses related to camshaft lifters and push rods
Abnormal exhaust discharge

Transmission & Drive Shaft

Improper fluid level or leakage, excluding normal seepage
Cracked or damaged case which is visible
Abnormal noise or vibration caused by faulty transmission or drive shaft
Improper shifting or functioning in any gear
Manual clutch slips or chatters

Differential

Improper fluid level or leakage, excluding normal seepage
Cracked or damaged housing which is visible
Abnormal noise or vibration caused by faulty differential

Cooling System

Leakage including radiator
Improperly functioning water pump

Electrical System

Battery leakage
Improperly functioning alternator, generator, battery, or starter

Fuel System

Visible leakage

Inoperable Accessories

Gauges or warning devices
Air conditioner
Heater & Defroster

Brake System

Failure warning light broken
Pedal not firm under pressure (DOT spec.)
Not enough pedal reserve (DOT spec.)
Does not stop vehicle in straight line (DOT spec.)
Hoses damaged
Drum or rotor too thin (Mfgr. Specs)
Lining or pad thickness less than 1/32 inch
Power unit not operating or leaking
Structural or mechanical parts damaged

Air Bags

Steering System

Too much free play at steering wheel (DOT specs.)
Free play in linkage more than 1/4 inch
Steering gear binds or jams
Front wheels aligned improperly (DOT specs.)
Power unit belts cracked or slipping
Power unit fluid level improper

Suspension System

Ball joint seals damaged
Structural parts bent or damaged
Stabilizer bar disconnected
Spring broken
Shock absorber mounting loose
Rubber bushings damaged or missing
Radius rod damaged or missing
Shock absorber leaking or functioning improperly

Tires

Tread depth less than 2/32 inch
Sizes mismatched
Visible damage

Wheels

Visible cracks, damage or repairs
Mounting bolts loose or missing

Exhaust System

Leakage
Catalytic Converter

Rubicon Sport Utility 2D	\$21,500	\$27,400	\$29,100

Values above are based on "Good" condition vehicles [O](#). Estimated Trade-In Values range from about \$16,450 to \$21,500 depending on vehicle style. Estimated Private Party Values range from about \$17,950 to \$27,400 depending on vehicle style. Values and prices are based on national averages and typical mileage for this model, but they can vary greatly according to mileage, condition, location, and other factors. Valid through 5/29/2026.

Trade-In Value is the amount you can expect to receive this week when trading in your vehicle at a dealership.

Private Party Value

Private Party Value is the fair price you can expect when selling your car to an individual, not to a dealer.

Fair Purchase Price

Fair Purchase Price shows what others in your area are actually paying for this vehicle.

2021 Jeep Wrangler Safety

Safety Features & Technology

Safety Group

Optional on but the base model, this package includes blind-spot monitoring and rear parking sensors.

Jeep Advanced Safety Group

Also optional on all but the base Sport trim, this package includes forward-collision warning, automatic emergency braking, and adaptive cruise control.

Hill Descent Control

Standard on all automatic-transmission models, Hill Descent Control helps maintain a low speed during vehicle descent, negating the need for the driver to activate the brakes or gear setting.

Key

G Good	Superior
A Acceptable	Advanced
M Marginal	Basic
P Poor	

Some ratings use a scale of Poor to Good. Others range from Basic to Superior.

Small overlap front: driver-side

Tested vehicle: **2019 Jeep Wrangler Unlimited Sport 4-door 4wd**

Rating applies to 2018-21 models

The Jeep Wrangler was redesigned for the 2018 model year. The previous design was built concurrently through much of the same model year and was renamed the Wrangler JK. Three driver-side small overlap frontal tests of the Wrangler were conducted, two by the Institute and the other by Fiat Chrysler. Ratings are based primarily on the Institute's tests and apply only to the redesigned model.

In both of the Institute's tests, the vehicle tipped onto its passenger side after striking the barrier. The partial rollover presents an additional injury risk beyond what the standard criteria are intended to measure in small overlap frontal crash tests. A vehicle tipping onto its side is not an acceptable outcome for a frontal crash and, as a result, the Wrangler's overall rating was downgraded to marginal.

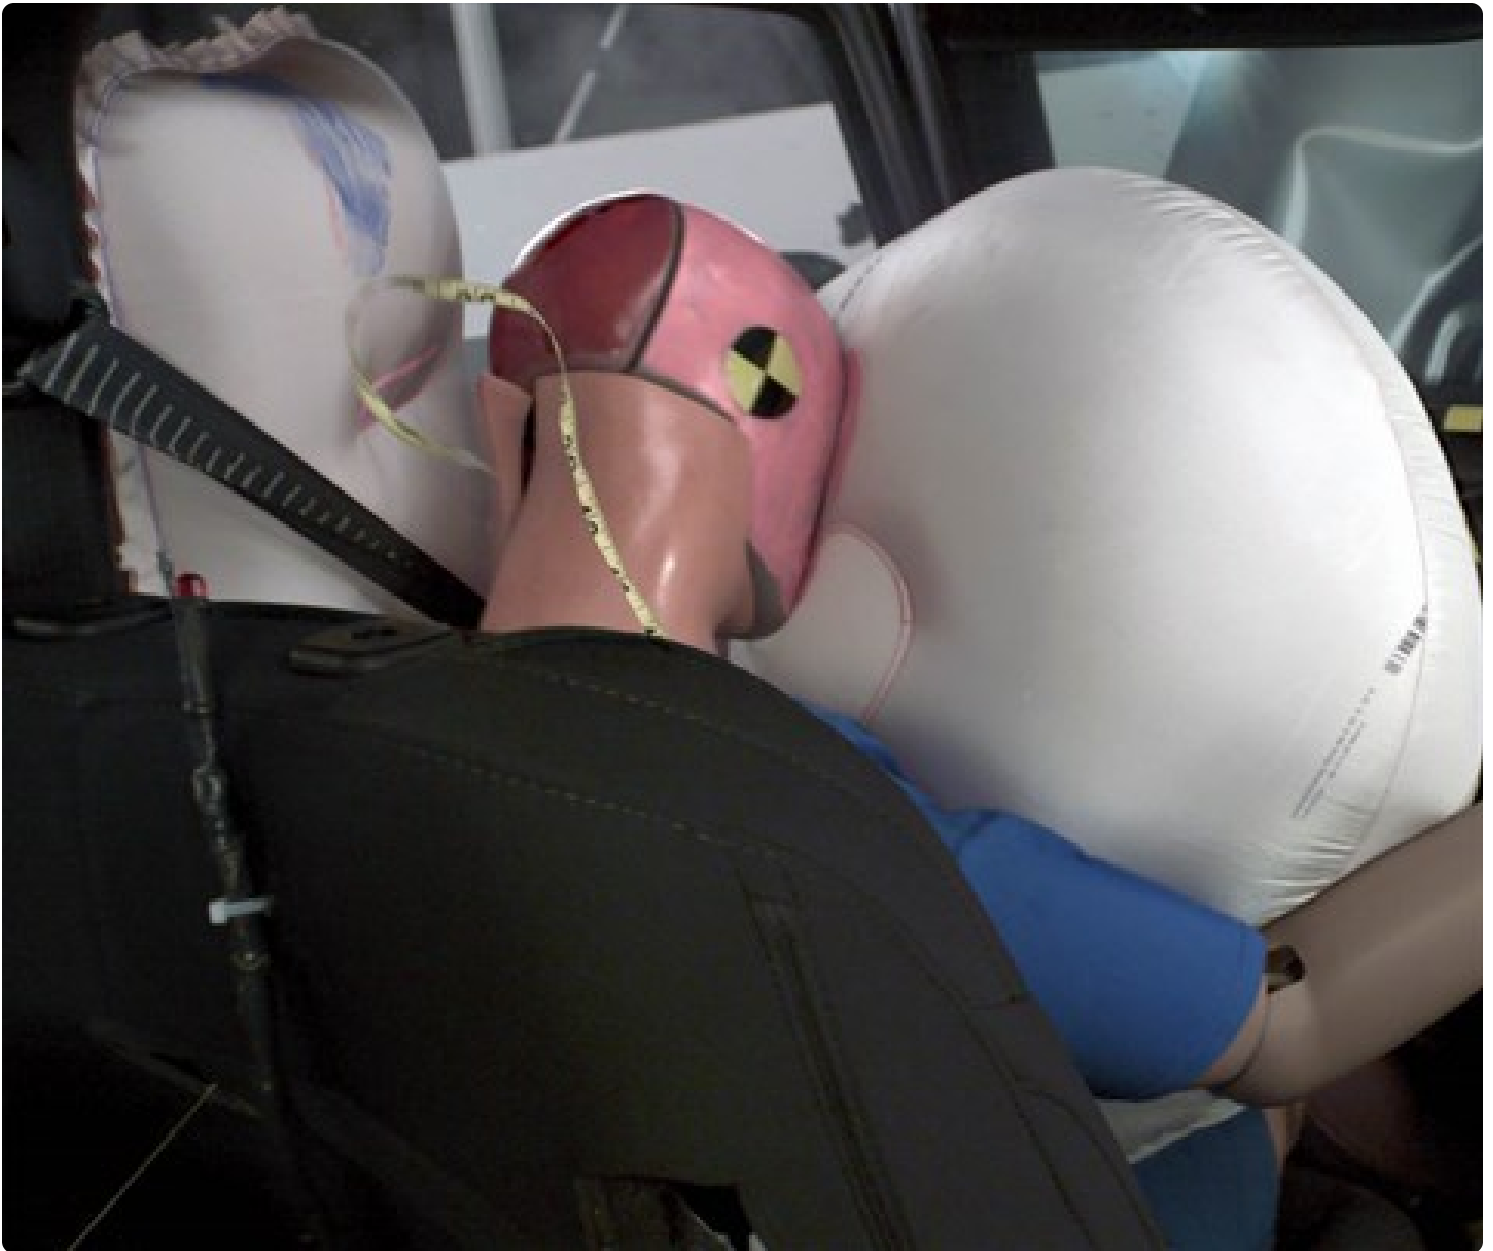

Overall evaluation	M
Structure and safety cage	G
Driver injury measures	
Head/neck	G
Chest	G
Hip/thigh	G
Lower leg/foot	G
Driver restraints and dummy kinematics	G

Action shot taken during the second of two Institute-conducted driver-side small overlap frontal crash tests just before the vehicle tipped on its side.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was maintained well (second test shown).

The dummy's movement was well controlled. The dummy's head loaded the frontal airbag, which stayed in front of the dummy until rebound. The combination head and torso side airbag deployed but does not have sufficient forward coverage to protect the head from contact with forward side structure and outside objects. The vehicle lacks side curtain airbags (second test shown).

The driver's space was maintained well, and risk of injuries to the dummy's legs and feet was low (second test shown).

The partial rollover presents an additional injury risk beyond what the standard crash test criteria are intended to measure (second test shown).

► Technical measurements for this test

Moderate overlap front: original test

Tested vehicle: **2018 Jeep Wrangler Unlimited Sahara 4-door 4wd**

Rating applies to 2018-24 models

The Jeep Wrangler was redesigned for the 2018 model year. The previous design was built concurrently through much of the same model year and was renamed the Wrangler JK. Moderate overlap frontal ratings are assigned by the Institute based on a test conducted by Fiat Chrysler and apply only to the redesigned model. These ratings also apply to the Jeep Gladiator.

Rear passenger restraints and dummy kinematics

P

View of the vehicle after the crash showing the front driver airbag and damage to the occupant compartment. The driver combination head and torso side airbag did not deploy during the test. The vehicle lacks a side curtain airbag in the rear.

The rear passenger dummy's head approached the front seatback, which increases the risk of head injuries.

Rear passenger dummy injury values indicate a moderate risk of injury to the head or neck and chest. During the crash, the shoulder belt remained in an ideal position on the dummy's chest.

The rear passenger dummy's lap belt moved from the ideal position on the pelvis onto the abdomen, increasing the risk of abdominal injuries.

Rear passenger head protection

The dummy's head was hit by the soft top vertical support and rear door window frame.

This impact did not produce high head injury measures, but the head protection is insufficient.

Headlights

Ratings are given for **4 different headlight variations** available on this vehicle.

(1) Trim level(s): Sport S trim equipped with LED Headlamp and Fog Lamp Group and Advanced Safety Group packages, Islander trim equipped with LED Headlamp and Fog Lamp Group and Advanced Safety Group packages, 80th Anniversary trim equipped with LED Headlamp and Fog Lamp Group and Advanced Safety Group packages, Unlimited Rubicon trim equipped with LED Headlamp and Fog Lamp Group and Advanced Safety Group packages, Unlimited Altitude trim equipped with LED Headlamp and Fog Lamp Group and Advanced Safety Group packages, Unlimited Sahara trim equipped with LED Headlamp and Fog Lamp Group and Advanced Safety Group packages, Unlimited Sahara Altitude trim equipped with LED Headlamp and Fog Lamp Group and Advanced Safety Group packages

Low-beam headlight type	LED projector
High-beam headlight type	LED projector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	M

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was fair on the left side of the road and inadequate on the right side. On curves, visibility was good on both right curves, fair on the sharp left curve and inadequate on the gradual left curve.

The low beams created some glare.

High beams

On the straightaway, visibility was inadequate on both sides of the road. On curves, visibility was fair on both right curves and inadequate on both left curves.

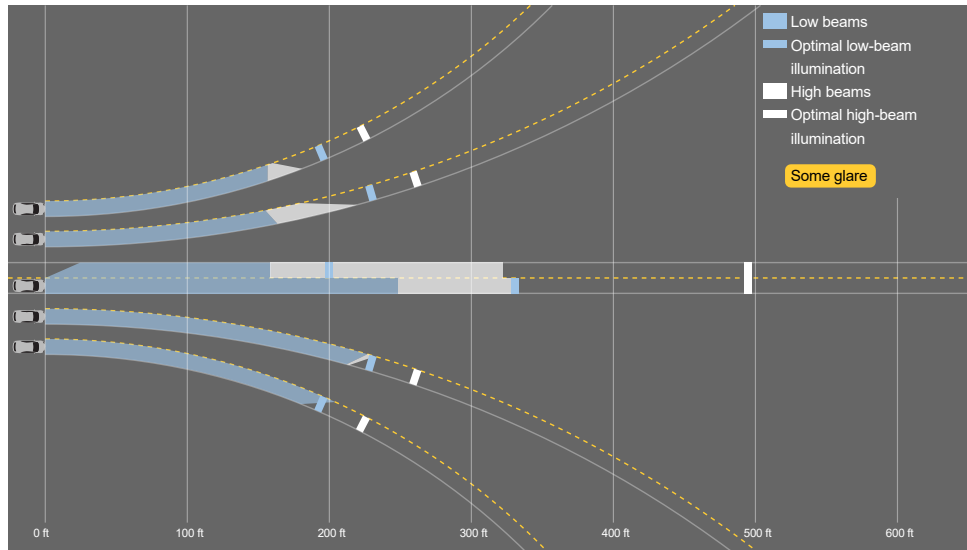

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway, on both left curves and on the gradual right curve.

(3) Trim level(s): Sport S trim equipped with Advanced Safety Group package, Islander trim equipped with Advanced Safety Group package, Willys trim equipped with Advanced Safety Group package, 80th Anniversary trim equipped with Advanced Safety Group package, Freedom trim equipped with Advanced Safety Group package, Unlimited Altitude trim equipped with Advanced Safety Group package, Unlimited Sahara trim equipped with Advanced Safety Group package, Unlimited Rubicon trim equipped with Advanced Safety Group package, Unlimited Sahara Altitude trim equipped with Advanced Safety Group package, Unlimited High Altitude trim equipped with Advanced Safety Group package

Low-beam headlight type Halogen reflector

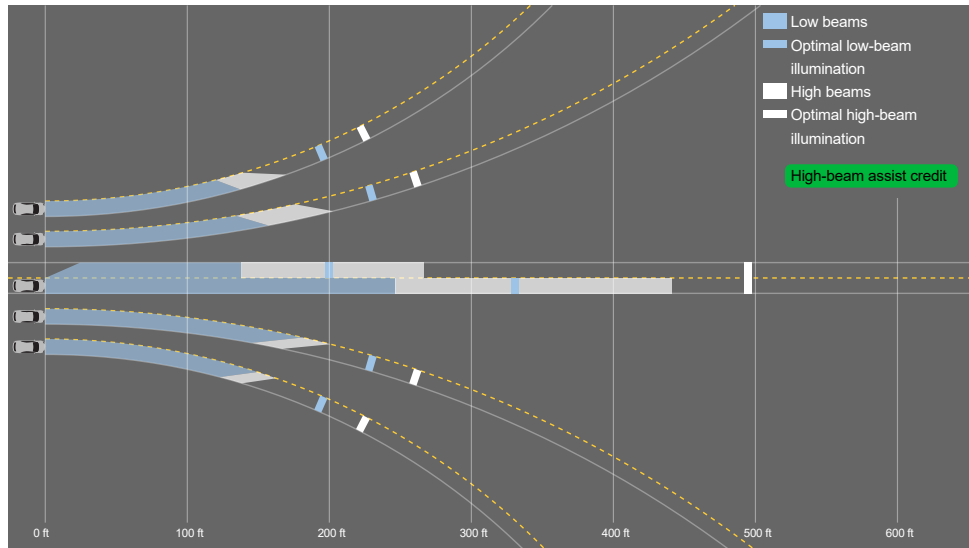

High-beam headlight type Halogen reflector

Curve-adaptive? No

High-beam assist? Yes

Overall rating **P**

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was inadequate on both sides of the road. On curves, visibility was inadequate in all 4 tests.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was fair on the right side of the road and inadequate on the left side. On curves, visibility was inadequate in all 4 tests.

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and all 4 curves.

► **Technical measurements for this test**

(4) Trim level(s): Sport trim, Willys Sport trim, Sport S trim, Islander trim, Willys trim, 80th Anniversary trim, Freedom trim, Unlimited Altitude trim, Unlimited Sahara trim, Unlimited Rubicon trim, Unlimited Sahara Altitude trim, Unlimited High Altitude trim

Low-beam headlight type Halogen reflector

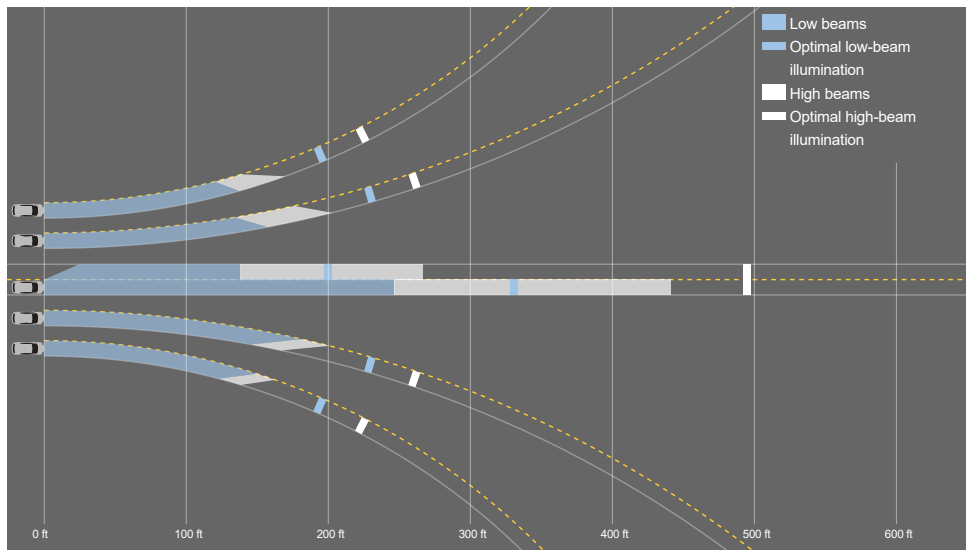

High-beam headlight type Halogen reflector

Curve-adaptive? No

High-beam assist? No

Front crash prevention: vehicle-to-vehicle

System details

- optional Full Speed Forward Collision Warning Plus

Package name

- optional Advanced Safety Group

Overall evaluation

SUPERIOR
WITH
OPTIONAL
EQUIPMENT

Applies to 2018-23 models

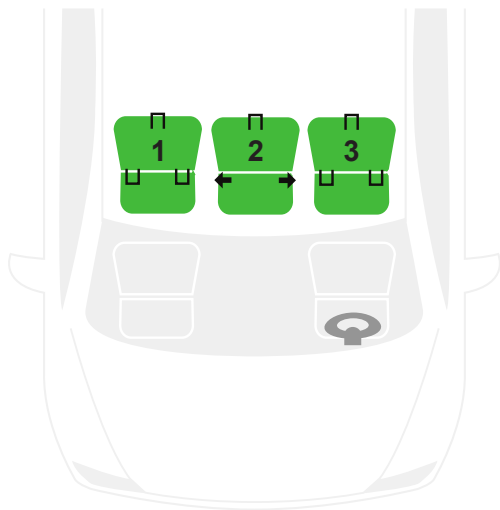

- This system meets the requirements for forward collision warning.
- In the 12 mph test, this vehicle avoided a collision.
- In the 25 mph test, this vehicle avoided a collision.

Child seat anchors

Rating applies to 2018-25 models

Overall evaluation	G + extra LATCH positions
Vehicle trim	Unlimited Sport
Seat type	cloth

This vehicle has 2 rear seating positions with complete child seat attachment (LATCH) hardware. It has 1 additional seating position with a tether anchor and the ability to borrow lower anchors from the other seating positions. Note: When anchors are borrowed, they aren't available to use in their designated positions.

Details by seating position

- Tether anchor**

 - easy-to-find location
 - no other hardware could be confused for anchor

Lower anchors

 - not too deep in seat
 - not too much force needed to attach
 - easy to maneuver around anchors

- Tether anchor**

 - easy-to-find location
 - no other hardware could be confused for anchor

Lower anchors

 - Can be borrowed from 1 and 3

- G** Good
- A** Acceptable
- M** Marginal
- P** Poor

- Seating positions that rely on borrowed lower anchors or have only a tether anchor available are not rated.

Tether anchor

Lower anchors

Lower anchor(s) can be borrowed from adjacent position(s)

- No hardware available

3 Tether anchor

easy-to-find location

no other hardware could be confused for anchor

Lower anchors

not too deep in seat

not too much force needed to attach

easy to maneuver around anchors

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by [these auto insurers and insurance associations](#).
