2024 Chevrolet Equinox Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

Action shot taken during the passenger-side small overlap frontal crash test.

The dummy's position in relation to the door frame and dashboard after the crash test indicates that the passenger's survival space was maintained reasonably well.

The frontal and side curtain airbags worked well together to keep the passenger dummy's head from coming close to any stiff structure or outside objects that could cause injury.

Intrusion of the dashboard and door hinge pillar contributed to a moderate risk of injury to the right lower leg.
