2024 Buick Encore GX Review

By Colin Ryan ⓘ

Updated January 30, 2025

Pros

- Quiet cabin
- Available AWD
- Good tech

Cons

- Dull engines

What's New?

- Styling revisions
- Top Avenir trim
- Fresh infotainment tech

Buick has discontinued the smaller Encore, so the 2024 Encore GX becomes the marque's smallest SUV. Actually, its smallest vehicle full stop. Because Buick doesn't make anything but SUVs these days. This also ends the minor confusion of having two models with extremely similar names.

2024 Buick Encore GX Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2024 Buick Encore GX Safety

Safety Features & Technology

Forward collision warning with automatic emergency braking

This is standard across the 2024 Encore GX range and includes pedestrian detection. Lane-keeping assistance/lane-departure warning, following distance indicator, and automatic high beams are also part of the deal.

Teen Driver

This standard feature allows owners to set certain parameters — like limiting sound system levels and receiving speed alerts — when their bundles of joy become old enough to borrow the car.

Rear camera mirror

Optional in the top Avenir trim, this replaces the conventional rearview mirror with images from a wide-angle camera (with a washer). It results in a view unobstructed by the heads of passengers, pillars, and/or any large cargo loads.

Some ratings use a scale of Poor to Good. Others range from Basic to Superior.

Small overlap front

The small overlap front evaluation consists of a driver-side and a passenger-side component. If the results of the two evaluations differ, then the combined small overlap rating is equal to the lower rating.

Driver-side

Tested vehicle: **2021 Buick Encore GX Select 4-door 4wd**
Rating applies to 2020-26 models

The Buick Encore GX was introduced in the 2020 model year as a replacement for the Buick Encore, while the 2021 Chevrolet Trailblazer returned after an 11-year absence from the market as a replacement for the Chevrolet Trax. Two small overlap frontal tests of the Encore GX were conducted, one by the Institute and the other by General Motors. Ratings are based on both tests, but the vehicle specifications shown below are based on the Institute’s test.

Overall driver-side evaluation	G
Structure and safety cage	G
Driver injury measures	
Head/neck	G
Chest	G
Hip/thigh	G
Lower leg/foot	G
Driver restraints and dummy kinematics	G

Action shot taken during the small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was maintained very well.

The frontal and side curtain airbags worked well together to keep the head from coming close to any stiff structure or outside objects that could cause injury.

The driver's space was maintained well, and risk of injuries to the dummy's legs and feet was low.

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by [these auto insurers and insurance associations](#).
