About AutoCheck

AutoCheck vehicle history reports by Experian Automotive is the leading vehicle history reporting service. With expert data handling, the Experian Automotive database houses over 4 billion records on a half a billion vehicles. Every AutoCheck vehicle history report will give you confidence when buying or selling your next used vehicle, with superior customer service every step of the way.

Patent Notice

Certain aspects of this vehicle history report may be covered by U.S. Patent 8,005,759.

Here is a list of some major defects that may occur in used vehicles.

Frame & Body

Frame-cracks, corrective welds, or rusted through
Dog tracks—bent or twisted frame

Engine

Oil leakage, excluding normal seepage
Cracked block or head
Belts missing or inoperable
Knocks or misses related to camshaft lifters and push rods
Abnormal exhaust discharge

Transmission & Drive Shaft

Improper fluid level or leakage, excluding normal seepage
Cracked or damaged case which is visible
Abnormal noise or vibration caused by faulty transmission or drive shaft
Improper shifting or functioning in any gear
Manual clutch slips or chatters

Differential

Improper fluid level or leakage, excluding normal seepage
Cracked or damaged housing which is visible
Abnormal noise or vibration caused by faulty differential

Cooling System

Leakage including radiator
Improperly functioning water pump

Electrical System

Battery leakage
Improperly functioning alternator, generator, battery, or starter

Fuel System

Visible leakage

Inoperable Accessories

Gauges or warning devices
Air conditioner
Heater & Defroster

Brake System

Failure warning light broken
Pedal not firm under pressure (DOT spec.)
Not enough pedal reserve (DOT spec.)
Does not stop vehicle in straight line (DOT spec.)
Hoses damaged
Drum or rotor too thin (Mfr. Specs)
Lining or pad thickness less than 1/32 inch
Power unit not operating or leaking
Structural or mechanical parts damaged

Air Bags

Steering System

Too much free play at steering wheel (DOT specs.)
Free play in linkage more than 1/4 inch
Steering gear binds or jams
Front wheels aligned improperly (DOT specs.)
Power unit belts cracked or slipping
Power unit fluid level improper

Suspension System

Ball joint seals damaged
Structural parts bent or damaged
Stabilizer bar disconnected
Spring broken
Shock absorber mounting loose
Rubber bushings damaged or missing
Radius rod damaged or missing
Shock absorber leaking or functioning improperly

Tires

Tread depth less than 2/32 inch
Sizes mismatched
Visible damage

Wheels

Visible cracks, damage or repairs
Mounting bolts loose or missing

Exhaust System

Leakage
Catalytic Converter

2012 Hyundai Elantra Review

By **KBB Editors** ⓘ
Updated December 23, 2019

Pros

If your price range says economy car, but your taste says sleek and stylish, the 2012 Hyundai Elantra may very well be the answer to your dilemma. Looking somewhat like a miniaturized Hyundai Sonata, the 2012 Hyundai Elantra sedan definitely outclasses just about everything in its segment, yet its low price, feature-laden standard-equipment list and large interior defy the compact-car image.

Cons

If you're looking for a small car that is more sporty than smooth, the 2012 Hyundai Elantra may not be the best choice. A Mazda3 and Ford Focus may deliver superior driving experiences, but neither can match the Hyundai Elantra's impressive equipment list or lengthy warranty.

What's New?

The 2012 Hyundai Elantra compact sedan gains Hyundai's ActiveECO system that modifies engine and transmission controls for maximum fuel economy and smoothness. All Elantra models get recalibrated steering systems for better on-center feel, while cars equipped with the GLS Preferred Package gain fog lights and a passenger-side sun-visor extension, as well as a rear cargo cover and premium cloth interior on Elantra Touring models.

*Depreciation for the last 12 months of the private party resale value.

2012 Hyundai Elantra Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

G

Driver restraints and dummy kinematics

The dummy’s head contacted the frontal airbag but slid off the left side, leaving the head vulnerable to contact with forward structure. Additionally, the seat belt allowed excessive forward excursion of the dummy’s head and torso. The side curtain airbag deployed and had sufficient forward coverage to protect the head from contact with side structure and outside objects. The side torso airbag also deployed.

A

Action shot taken during the small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was not maintained well.

The dummy's head contacted the frontal airbag but then slid off the left side. The side curtain airbag extended far enough forward toward the A-pillar to protect the head from contact with forward side structure. However, the seat belt allowed the dummy to move too far forward.

Despite considerable intrusion by the door hinge pillar and instrument panel, risk of injuries to the dummy's legs and feet was low.

► Technical measurements for this test

Moderate overlap front: original test

Tested vehicle: **2011 Hyundai Elantra GLS 4-door**

Rating applies to 2011-16 models

The Hyundai Elantra was redesigned for the 2011 model year. Moderate overlap frontal ratings are assigned by the Institute based on a test conducted by Hyundai.
