† This odometer reading is inconsistent with the odometer history. This could be due to a typographical, clerical, or rounding error and does not necessarily represent an odometer rollback by itself. If we receive additional odometer history that corroborates an odometer rollback, this display may change and that may impact other aspects of this report and the vehicle's qualifications.

Warranty Check

To see your estimated warranty coverage details, please enter a mileage reading below. The warranty coverage shown is an estimate using the best available in-service date, the mileage reading you enter, and warranty information. Experian AutoCheck does not guarantee coverage, please verify these results and coverage details with an authorized dealership.

AutoCheck Terms and Conditions

This report, and any reliance upon it, is subject to **AutoCheck Terms and Conditions**. If you obtained the report from a lender/dealer, the lender/dealer has been provided with these Terms and Conditions and can share them with you. These AutoCheck Terms and Conditions are also available at any time at www.autocheck.com/terms or by writing to Experian: Experian Automotive C/O AutoCheck Customer Service 1515 E. Woodfield Road, Suite 500, Schaumburg, IL 60173.

About AutoCheck

AutoCheck vehicle history reports by Experian Automotive is the leading vehicle history reporting service. With expert data handling, the Experian Automotive database houses over 4 billion records on a half a billion vehicles. Every AutoCheck vehicle history report will give you confidence when buying or selling your next used vehicle, with superior customer service every step of the way.

Patent Notice

Certain aspects of this vehicle history report may be covered by U.S. Patent 8,005,759.

Here is a list of some major defects that may occur in used vehicles.

Frame & Body

Frame-cracks, corrective welds, or rusted through
Dog tracks—bent or twisted frame

Engine

Oil leakage, excluding normal seepage
Cracked block or head
Belts missing or inoperable
Knocks or misses related to camshaft lifters and push rods
Abnormal exhaust discharge

Transmission & Drive Shaft

Improper fluid level or leakage, excluding normal seepage
Cracked or damaged case which is visible
Abnormal noise or vibration caused by faulty transmission or drive shaft
Improper shifting or functioning in any gear
Manual clutch slips or chatters

Differential

Improper fluid level or leakage, excluding normal seepage
Cracked or damaged housing which is visible
Abnormal noise or vibration caused by faulty differential

Cooling System

Leakage including radiator
Improperly functioning water pump

Electrical System

Battery leakage
Improperly functioning alternator, generator, battery, or starter

Fuel System

Visible leakage

Inoperable Accessories

Gauges or warning devices
Air conditioner
Heater & Defroster

Brake System

Failure warning light broken
Pedal not firm under pressure (DOT spec.)
Not enough pedal reserve (DOT spec.)
Does not stop vehicle in straight line (DOT spec.)
Hoses damaged
Drum or rotor too thin (Mfr. Specs)
Lining or pad thickness less than 1/32 inch
Power unit not operating or leaking
Structural or mechanical parts damaged

Air Bags

Steering System

Too much free play at steering wheel (DOT specs.)
Free play in linkage more than 1/4 inch
Steering gear binds or jams
Front wheels aligned improperly (DOT specs.)
Power unit belts cracked or slipping
Power unit fluid level improper

Suspension System

Ball joint seals damaged
Structural parts bent or damaged
Stabilizer bar disconnected
Spring broken
Shock absorber mounting loose
Rubber bushings damaged or missing
Radius rod damaged or missing
Shock absorber leaking or functioning improperly

Tires

Tread depth less than 2/32 inch
Sizes mismatched
Visible damage

Wheels

Visible cracks, damage or repairs
Mounting bolts loose or missing

Exhaust System

Leakage
Catalytic Converter

*"Excellent" - 3% of all cars we value meet this criteria. This car looks new and is in excellent mechanical condition. It has never had paint or bodywork and has an interior and body free of wear and visible defects. The car is rust-free and does not need reconditioning. Its clean engine compartment is free of fluid leaks. It also has a clean title history, has complete and verifiable service records.

2024 Hyundai Kona Review

By Russ Heaps

Updated January 30, 2025

Pros

- Outstanding value
- Bar-setting warranty
- Class-leading space

Cons

- Pricing increase
- Uninspired base engine

What's New?

- Totally redesigned

The second-generation Hyundai Kona is a more-refined reimagining of this value-laden small SUV first introduced for the 2018 model year. Engineered as an urban warrior, its focus is providing relatively inexpensive, user-friendly transportation to those living or working in the concrete jungle. However, it's also completely at home cruising cross-country freeways. With a base powertrain providing impressive fuel economy and adequate grunt for everyday duties, the Kona seats four comfortably (five in a pinch) yet still offers a fair amount of cargo room. Its remarkable features-to-price ratio and generous warranty make it a compelling value in its segment. Key rivals include the [Volkswagen Taos](#), [Mazda CX-30](#), [Honda HR-V](#), and [Subaru Crosstrek](#). Hyundai also makes a fully electric (EV) Kona variant, which we review separately.

We've spent hundreds of hours driving and evaluating this generation of subcompact SUVs, including the Hyundai Kona.

2024 Hyundai Kona Values and Prices

Kona Electric

Style	Trade-In Value	Private Party Value	Fair Purchase Price
SE Sport Utility 4D	\$14,550	\$16,700	\$18,350
SEL Sport Utility 4D	\$15,250	\$18,050	\$19,850
N Line Sport Utility 4D	\$18,250	\$20,700	\$22,700
Limited Sport Utility 4D	\$18,400	\$21,100	\$23,200

Values above are based on "Good" condition vehicles ⓘ. Estimated Trade-In Values range from about \$14,550 to \$18,400 depending on vehicle style. Estimated Private Party Values range from about \$16,700 to \$21,100 depending on vehicle style. Values and prices are based on national averages and typical mileage for this model, but they can vary greatly according to mileage, condition, location, and other factors. Valid through 9/17/2026.

Trade-In Value

Trade-In Value is the amount you can expect to receive this week when trading in your vehicle at a dealership.

Private Party Value

Private Party Value is the fair price you can expect when selling your car to an individual, not to a dealer.

Fair Purchase Price

Fair Purchase Price shows what others in your area are actually paying for this vehicle.

2024 Hyundai Kona Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

- Standard lane departure warning & prevention
- Standard rear automatic braking

Key

Small overlap front

The small overlap front evaluation consists of a driver-side and a passenger-side component.
If the results of the two evaluations differ, then the combined small overlap rating is equal to the lower rating.

Driver-side

Tested vehicle: **2024 Hyundai Kona SEL 4-door 4wd**
Rating applies to 2024-26 models

The Hyundai Kona was redesigned for the 2024 model year. Driver-side small overlap frontal ratings are assigned by the Institute based on a test of a 2024 Kona conducted by Hyundai/Kia.

Overall driver-side evaluation	G
Structure and safety cage	G
Driver injury measures	
Head/neck	G
Chest	G
Hip/thigh	G
Lower leg/foot	G
Driver restraints and dummy kinematics	G

► Technical measurements for this test

Passenger-side

Tested vehicle: **2024 Hyundai Kona SEL 4-door 4wd**
Rating applies to 2024-26 models

The Hyundai Kona was redesigned for the 2024 model year. Passenger-side small overlap frontal ratings are assigned by the Institute based on a test of a 2024 Kona conducted by Hyundai/Kia.

Overall passenger-side evaluation	G

Moderate overlap front: updated test

Tested vehicle: 2024 Hyundai Kona N Line 4-door 4wd
Rating applies to 2024-26 models

The Hyundai Kona was redesigned for the 2024 model year. Two tests of the Kona were conducted, the first by the Institute and the second by Hyundai. In the IIHS test, an engine bay fire occurred. While this shouldn't happen, it did not affect vehicle structure or dummy injuries in this test.

Beginning with vehicles built after December 2023, Hyundai modified N-Line Kona's with the 1.6 liter turbo engine to prevent such fires. Hyundai has implemented a recall to apply the same fix to cars built earlier. (Information about when a specific vehicle was manufactured is on the certification label typically affixed to the car on the driver door or adjacent B-pillar.)

In the second test conducted by Hyundai on a vehicle with the modification, no engine bay fire was observed. Ratings of the Kona are based on the Institute's test.

Overall evaluation	G

Head/neck	G
Chest	G
Thigh/hip	G

Leg/foot	A
Driver restraints and dummy kinematics	G
Rear passenger injury measures	
Head/neck	G
Chest	G
Thigh	G
Rear passenger restraints and dummy kinematics	A

View of the vehicle after the crash showing the airbags and damage to the occupant compartment.

The rear passenger dummy's head remained a safe distance from the front seatback.

Rear passenger dummy injury values indicate a low risk of injury to the head or neck and chest. During the crash, the shoulder belt moved too far upward toward the dummy's neck, compromising the effectiveness of the rear restraint system.

The rear passenger dummy's lap belt remained in the ideal position on the pelvis.

Headlights

Trim level(s): All trims

Low-beam headlight type	LED projector
High-beam headlight type	LED projector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	A

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was good on the left side of the road and inadequate on the right side. On curves, visibility was good on the sharp left and both right curves and fair on the gradual left curve.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on the right side of the road and inadequate on the left side. On curves, visibility was good on the gradual left and both right curves and fair on the sharp left curve.

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and on the gradual left curve.

► Technical measurements for this test

Front crash prevention: pedestrian

System details

- standard Forward Collision-Avoidance Assist
- of the following trim lines: SEL trim

Overall evaluation

G

Includes high-beam assist credit

Rating applies to 2024-26 models

Crossing child — day

- In the 12 mph test, this vehicle avoided a collision.
- In the 25 mph test, this vehicle avoided a collision.

Crossing adult — night

- In the 12 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.
- In the 25 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.

Parallel adult — night

- In the 25 mph test, this vehicle avoided a collision when using its high beams. When using its low beams, this vehicle avoided a collision.
- In the 37 mph test, this vehicle avoided a collision when using its high beams and a warning was issued 2 seconds before impact. When using its low beams, impact speed was reduced by 33 mph and a warning was issued 1.2 seconds before impact.

Seat belt reminders

Rating applies to 2024-26 models

Overall evaluation	G

Child seat anchors

Rating applies to 2024-26 models

Overall evaluation	A
Vehicle trim	N Line
Seat type	cloth

This vehicle has 2 rear seating positions with complete child seat attachment (LATCH) hardware. It has 1 additional seating position with a tether anchor only.

Details by seating position

- 1

Tether anchor

easy-to-find location

no other hardware could be confused for anchor

Lower anchors

too deep in seat

not too much force needed to attach

easy to maneuver around anchors
- 2

Tether anchor

easy-to-find location

- G** Good
- A** Acceptable
- M** Marginal
- P** Poor

- ☐ Seating positions that rely on borrowed lower anchors or have only a tether anchor available are not rated.

Tether anchor

Lower anchors

Lower anchor(s) can be borrowed from adjacent positions(s)
- ☐ No hardware available

no other hardware could be confused for anchor

Lower anchors

none available

3 Tether anchor

easy-to-find location

no other hardware could be confused for anchor

Lower anchors

too deep in seat

not too much force needed to attach

easy to maneuver around anchors

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by [these auto insurers and insurance associations](#).
