2017 Nissan Rogue Sport Review

By **Rob Nestora**
Updated July 31, 2022

Pros

Nissan likes to say that the 2017 Rogue Sport appeals to childless individuals or couples who want the extra space and capability of an SUV, but without the added bulk. If that's who you see in the mirror, it's right up your alley.

Cons

If you think an SUV of any sort should boast some off-road capability, you might want to check out the Trailhawk versions of the Jeep Renegade and Compass. If you want something smaller, there's the Honda HR-V, or the Chevy Trax if you want Apple CarPlay or Android Auto.

What's New?

The 2017 Nissan Rogue Sport is an all-new vehicle to the U.S. market, having been available overseas as the Nissan Qashqai. It's based on the bigger Nissan Rogue, sharing many of its interior components and style, but in a smaller and less expensive package than the Rogue.

The 2017 Nissan Rogue Sport is a smaller and more affordable version of the compact Nissan Rogue. We mean that literally: The dash is identical, and it offers many of the same tech and safety features, but in a package lacking the larger rear seat, available third row, and bigger cargo space of its bigger brother. Basically, it takes the already successful Rogue — it's the best-selling car in its class — and makes it "fun size" to go head-to-head with other small SUVs like the Honda HR-V, Mazda CX-3 and Chevrolet Trax. We wish it had more power and more modern technology — Apple CarPlay and Android Auto aren't available — but we're betting plenty will find the Rogue Sport's smaller size just right.

2017 Nissan Rogue Sport Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by these auto insurers and insurance associations.
