2023 Jeep Compass Review

By **Eric Brandt**
Updated January 30, 2025

Pros

- Modern tech features
- Standard turbocharged engine
- Good off-road

Cons

- Small cargo hold

What's New?

- New turbo engine
- AWD now standard
- More safety tech included

The 2023 Jeep Compass is something a little different among small SUVs. It's a practical daily commuter that's easy to drive, but it also has off-road abilities that live up to the Jeep name. The Compass receives several significant updates for 2023, such as a turbocharged engine, all-wheel drive (AWD) in every version, and more standard driver assistance features. These changes keep the Compass competitive in the subcompact SUV class. Other small off-road-ready SUVs include the Ford Bronco Sport and Subaru Crosstrek.

2023 Jeep Compass Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2023 Jeep Compass Safety

Safety Features & Technology

Highway Assist

As its name implies, Highway Assist is a partially autonomous driving system that makes highway driving safer and more relaxed, but still requires the driver's hands on the wheel and eyes on the road.

Parallel and Perpendicular Park Assist

These features use sensors and cameras around the vehicle to help with parking. The driver works the pedals and the Compass does the rest.

Traffic Sign Recognition

This feature can read road signs to update drivers on the speed limit and notify them of any signs they might have missed.

Headlights

Ratings are given for **3 different headlight variations** available on this vehicle.

(1) Trim level(s): Latitude Lux trim equipped with Premium Lighting Group package, Limited trim equipped with Elite Group package, Trailhawk trim equipped with Trailhawk Elite Group package, Limited trim equipped with High Altitude package, Limited trim equipped with Ellite Group for Red Edition package

Low-beam headlight type	LED projector
High-beam headlight type	LED projector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	**G**

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was good on both right curves, fair on the sharp left curve and inadequate on the gradual left curve.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was good in all 4 tests.

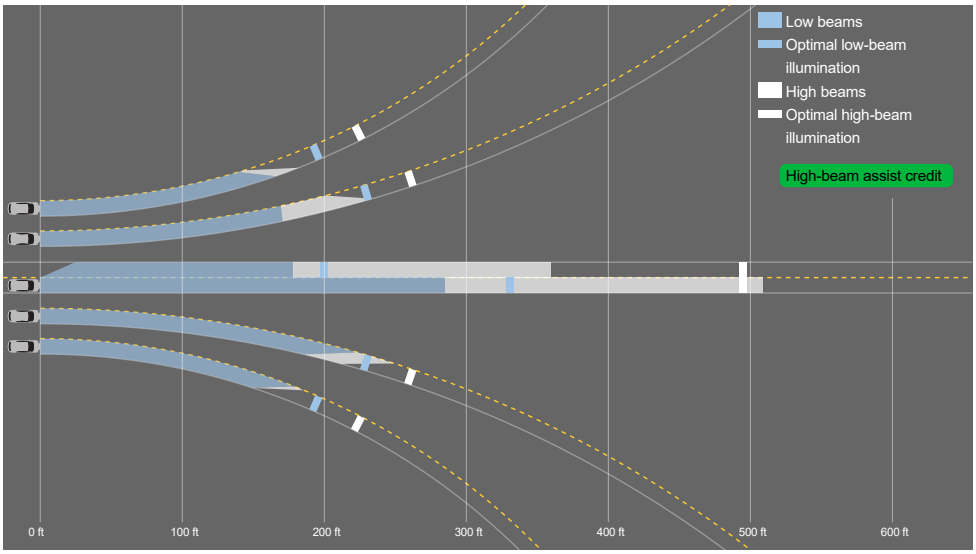

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and on both left curves.

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by these auto insurers and insurance associations.
