# 2023 Chevrolet Equinox Review

By **Colin Ryan**
Updated January 30, 2025

## Pros

- Generous rear legroom
- Wireless Apple CarPlay/Android Auto
- User-friendly infotainment setup

## Cons

- No hybrid version
- Not really special in any area

## What's New?

- Upgraded engine
- Upgraded brakes
- Changes in option packages
- Midnight Edition for LS trim

There must be a way to make the 2023 Equinox more attractive. After all, compact SUVs are big sellers. Some even have all-wheel drive as standard, while others offer 10-year/100,000-mile powertrain warranties.

## 2023 Chevrolet Equinox Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

# 2023 Chevrolet Equinox Safety

## Safety Features & Technology

**Chevy Safety Assist**

This collection of driver assistance features is standard in every new Chevy Equinox compact SUV. It provides forward collision warning with automatic emergency braking, pedestrian detection, and a following distance indicator.

**Side Blind Zone with Rear Cross Traffic Alert**

In other words, blind-spot monitoring. This is optional in all but the Premier trim, where it finally becomes standard. And buyers are obliged to select the Driver Confidence II package (front/rear parking sensors) as well.

**Driver Confidence III package**

Offered as an option only with the Premier trim, this includes a 360-degree camera system, adaptive cruise control, and automatic parking assistance (it takes care of steering into and out of parallel and perpendicular spaces, while the driver does the rest). This is only available once the buyer has also gone for heated/ventilated front seats and heated outboard rear seats.

Action shot taken during the passenger-side small overlap frontal crash test.

The dummy's position in relation to the door frame and dashboard after the crash test indicates that the passenger’s survival space was maintained reasonably well.

The frontal and side curtain airbags worked well together to keep the passenger dummy’s head from coming close to any stiff structure or outside objects that could cause injury.

Intrusion of the dashboard and door hinge pillar contributed to a moderate risk of injury to the right lower leg.

On the straightaway, visibility was good on both sides of the road. On curves, visibility was fair on the sharp left and both right curves and inadequate on the gradual left curve.

The low beams created excessive glare.

**High beams**
On the straightaway, visibility was good on the right side of the road and inadequate on the left side. On curves, visibility was fair in all 4 tests.

High-beam assist compensates for some limitations of this vehicle's low beams on both left curves and on both right curves.
