2022 Nissan Altima Safety

Safety Features & Technology

Forward-collision warning with automatic emergency braking

Standard in every new Altima, this driver assistance system also includes pedestrian detection.

Blind-spot monitoring with rear cross-traffic alert

Yet another reason to consider the 2022 Altima in SV trim instead of the cheaper S. Blind-spot monitoring warns drivers of any vehicles approaching in adjacent lanes. Rear cross-traffic alert keeps a virtual eye out for hazards on either side while the car is reversing. This is all standard at the SV level, along with rear automatic braking and rear parking sensors.

ProPilot Assist

Available as part of the SV Premium package or standard from the SR level, this feature consists of full-speed adaptive cruise control, plus steering assistance that helps the driver keep the car centered in its lane.
