- Generously equipped

Cons

- Stingy cargo space
- Cramped rear legroom

What's New?

- Trim-level shakeup

The ground floor of Mazda's crossover lineup, the CX-30 doesn't skimp on comfort, driving fun, or standard content. It's smaller inside than rivals like the Chevy Trailblazer, Kia Seltos, and Volkswagen Taos, but the CX-30 is one of the few subcompact SUVs to come standard with AWD. Within its circle of rivals, you'll be hard-pressed to find the CX-30's combination of a well-crafted cabin, sporty driving dynamics, and high volume of standard features.

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. 2024 MAZDA CX-30 Safety

Safety Features & Technology

2023 features shown. 2024 may differ.

Automatic emergency braking

This is a forward collision warning/automatic emergency braking system that operates over a wide range of speeds, not just at lower in-town speeds. It's standard in every new CX-30.

Blind-spot monitoring with rear cross-traffic alert

Fitted at the 2.5 S Select level, blind-spot monitoring keeps drivers aware of vehicles coming up from behind at either side. In the top Turbo Premium Plus model, the rear cross-traffic alert aspect is augmented by automatic braking while in reverse gear.

Traffic-Jam Assist

This comes standard only on the Turbo Premium Plus version of the 2023 CX-30. It essentially takes the adaptive cruise control system (standard across the range) and enhances it with steering assistance. It's not self-driving but it helps reduce fatigue.

Action shot taken during the driver-side small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was maintained very well.

The frontal and side curtain airbags worked well together to keep the head from coming close to any stiff structure or outside objects that could cause injury.

The driver's space was maintained well, and risk of injuries to the dummy's legs and feet was low.
