About AutoCheck

AutoCheck vehicle history reports by Experian Automotive is the leading vehicle history reporting service. With expert data handling, the Experian Automotive database houses over 4 billion records on a half a billion vehicles. Every AutoCheck vehicle history report will give you confidence when buying or selling your next used vehicle, with superior customer service every step of the way.

Patent Notice

Certain aspects of this vehicle history report may be covered by U.S. Patent 8,005,759.

Here is a list of some major defects that may occur in used vehicles.

Frame & Body
- Frame-cracks, corrective welds, or rusted through
- Dog tracks—bent or twisted frame

Engine
- Oil leakage, excluding normal seepage
- Cracked block or head
- Belts missing or inoperable
- Knocks or misses related to camshaft lifters and push rods
- Abnormal exhaust discharge

Transmission & Drive Shaft
- Improper fluid level or leakage, excluding normal seepage
- Cracked or damaged case which is visible
- Abnormal noise or vibration caused by faulty transmission or drive shaft
- Improper shifting or functioning in any gear
- Manual clutch slips or chatters

Differential
- Improper fluid level or leakeage, excluding normal seepage
- Cracked of damaged housing which is visible
- Abnormal noise or vibration caused by faulty differential

Cooling System
- Leakage including radiator
- Improperly functioning water pump

Electrical System
- Battery leakage
- Improperly functioning alternator, generator, battery, or starter

Fuel System
- Visible leakage

Inoperable Accessories
- Gauges or warning devices
- Air conditioner
- Heater & Defroster

Brake System
- Failure warning light broken
- Pedal not firm under pressure (DOT spec.)
- Not enough pedal reserve (DOT spec.)
- Does not stop vehicle in straight line (DOT spec.)
- Hoses damaged
- Drum or rotor too thin (Mfgr. Specs)
- Lining or pad thickness less than 1/32 inch
- Power unit not operating or leaking
- Structural or mechanical parts damaged

Air Bags

Steering System
- Too much free play at steering wheel (DOT specs.)
- Free play in linkage more than 1/4 inch
- Steering gear binds or jams
- Front wheels aligned improperly (DOT specs.)
- Power unit belts cracked or slipping
- Power unit fluid level improper

Suspension System
- Ball joint seals damaged
- Structural parts bent or damaged
- Stabilizer bar disconnected
- Spring broken
- Shock absorber mounting loose
- Rubber bushings damaged or missing
- Radius rod damaged or missing
- Shock absorber leaking or functioning improperly

Tires
- Tread depth less than 2/32 inch
- Sizes mismatched
- Visible damage

Wheels
- Visible cracks, damage or repairs
- Mounting bolts loose or missing

Exhaust System
- Leakage
- Catalytic Converter

2016 Nissan Frontier Crew Cab Review

By **Matt Degen** ⓘ

Updated November 25, 2019

Pros

Offering one of the most comfortable driver's seats and seating positions among midsize trucks, the 2016 Frontier also boasts serious off-road chops, ruggedly handsome good looks, and the ability to tow up to 6,500 pounds.

Cons

The Frontier's aging powertrain is less efficient than those of its rivals, especially compared to the new diesel midsize pickups from GM that earn up to 31 mpg. You also won't find the latest safety and tech features such as blind-spot monitoring, forward-collision alert, wireless phone charging or in-cabin Wi-Fi.

What's New?

Only minor updates are in store for the 2016 Nissan Frontier. They include three new exterior colors and the availability of a moonroof on crew-cab SV models.

The 2016 Nissan Frontier is the oldest member of what has recently become a resurgent midsize-truck segment, yet it continues to hold up surprisingly well. With last year's all-new Chevy Colorado and GMC Canyon siblings, and this year's revamp of the venerable Toyota Tacoma, there's no doubt the Frontier faces stiff competition from rivals that offer better fuel economy and fresher amenities.

Style	Trade-In Value	Private Party Value	Fair Purchase Price

Values above are based on "Good" condition vehicles ⓘ. Estimated Trade-In Values range from about $9,450 to $12,850 depending on vehicle style. Estimated Private Party Values range from about $10,400 to $16,850 depending on vehicle style. Values and prices are based on national averages and typical mileage for this model, but they can vary greatly according to mileage, condition, location, and other factors. Valid through 11/11/2026.

Trade-In Value

Trade-In Value is the amount you can expect to receive this week when trading in your vehicle at a dealership.

Private Party Value

Private Party Value is the fair price you can expect when selling your car to an individual, not to a dealer.

Fair Purchase Price

Fair Purchase Price shows what others in your area are actually paying for this vehicle.

2016 Nissan Frontier Crew Cab Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

Key

G	Good	Superior
A	Acceptable	Advanced
M	Marginal	Basic
P	Poor	

Some ratings use a scale of Poor to Good. Others range from Basic to Superior.

Moderate overlap front: original test

Tested vehicle: **2013 Nissan Frontier SV King Cab 4wd**
Rating applies to 2013-21 models

The Nissan Frontier Crew Cab and King Cab were redesigned for the 2005 model year. Beginning with 2013 models, design changes were made to the frontal airbags and seat belts.

Moderate overlap frontal ratings are assigned by the Institute based on a test conducted by Nissan. (The vehicle tested by Nissan was designated as a 2012 model but included the airbag and seat belt changes of the 2013 models.) Because the vehicle structure did not change after 2005, structure ratings are based this test as well as two earlier tests of the Frontier, one a 2005 model and the other a 2008 model.

The moderate overlap frontal ratings apply to both the Crew Cab and King Cab models.

▶ Technical measurements for this test

Side: original test

Tested vehicle: **2015 Nissan Frontier SV Crew Cab 4wd with standard front and rear head curtain airbags and standard front seat-mounted torso airbags**
Rating applies to 2015-21 models

The Nissan Frontier Crew Cab was redesigned for the 2005 model year. Beginning with 2012 models, design changes were made to the side curtain airbags to improve occupant protection in side impact crashes. Beginning with 2015 models, design changes were made to the side torso airbags and front door trim panels to further improve protection for front seat occupants.

Side ratings are assigned by the Institute based on a test conducted by Nissan. However, because there were no significant side structural changes since the 2005 model year, the structure rating of the most recent model is based on this Nissan test and an earlier test of a 2012 Frontier model plus two Institute tests of 2008 and 2010 models. Rear passenger dummy injury and head

protection ratings are based on the two Nissan tests (2015 and 2012 models), because no changes were made affecting rear seat occupants since 2012.

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by these auto insurers and insurance associations.
