2024 Chevrolet Malibu Review

By **Russ Heaps** ⓘ

Updated January 30, 2025

Pros

- Spacious cabin, solid value, comfy ride

Cons

- Lackluster acceleration, 8 years old, lagging resale value

What's New?

- Rear park assist, tire inflator kit

The last sedan in Chevy's portfolio, the Malibu still delivers reliable transportation in a handsome package. Passenger comfort ranks high on its reasons-to-buy list, as does its trunk space, which is about average for the segment. Although its looks don't betray its age, all of Malibu's key rivals are younger with more up-to-date goodies. However, if what you need is dependable transportation and want it for a value price, the [Chevrolet Malibu](#) is a solid pick.

What's New for 2024

For 2024, rear park assist backup warning now comes standard. The only other change worth mentioning, or maybe not, is the addition of a

2024 Chevrolet Malibu Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2024 Chevrolet Malibu Safety

Safety Features & Technology

2023 features shown. 2024 may differ.

Forward collision warning with automatic emergency braking

Perhaps Chevy saw our review of last year's Malibu sedan where we said this should be standard. It is now, and includes pedestrian detection. It's part of the new Chevy Safety Assist array that also adds lane-keeping assistance, automatic high beams, and a following distance indicator.

Lane Change Alert with Side Blind Zone Alert

More commonly known as blind-spot monitoring, letting drivers know of vehicles coming up in adjacent lanes. Rear cross-traffic alert helps when reversing out of a parking space. These systems are optional across the 2023 Malibu range.

Adaptive cruise control

Part of an optional Driver Confidence and Cruise package offered with the top 2LT trim that also includes Automatic Parking Assist, adaptive cruise control adjusts speed to maintain a safe distance to the vehicle in front, then resumes the preset speed when conditions allow.

Action shot taken during the driver-side small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was maintained well.

The dummy's head contacted the frontal airbag but rolled around the left side, allowing the head to move toward the gap in coverage between the frontal and side curtain airbags.

The driver's space was maintained well, and risk of injuries to the dummy's legs and feet was low.

|---------------------------------|-------------------|
| High-beam headlight type | Halogen reflector |
| Curve-adaptive? | No |
| High-beam assist? | Yes |
| Overall rating | M |

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was fair on the right side of the road and inadequate on the left side. On curves, visibility was inadequate in all 4 tests.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was inadequate in all 4 tests.

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and all 4 curves.

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.
