2022 Ford Escape Review

By Colin Ryan ⓘ

Updated May 29, 2025

Pros

- Relatively roomy cabin
- Comfortable seats and ride quality
- Plenty of standard safety features
- Hybrid and plug-in hybrid versions available

Cons

- Not at the level of the class best
- Puny base engine

What's New?

- Minor equipment changes
- A few paint choice changes

The 2022 Ford Escape [compact crossover/SUV](#) is almost really good. It offers at least two interesting drivetrains (out of four) with one being a fuel-sipping plug-in hybrid, comes with several driver assistance features as standard, has a roomy cabin for the class, and this current generation was all-new only a couple of years ago.

2022 Ford Escape Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2022 Ford Escape Safety

Safety Features & Technology

Co-Pilot360

Ford's set of standard driver aids that come in every new Escape include forward collision warning with automatic emergency braking and pedestrian detection, blind-spot monitoring with cross-traffic alert, lane-keeping assistance, and automatic high beams.

Co-Pilot360 Assist+

This supplemental bundle of features includes adaptive cruise control with stop/go and a lane-centering function, plus evasive steering assistance. It's optional at the SE level and becomes standard in Titanium trim.

Speed Sign Recognition

This is also included in the Assist+ collection. Imagine using the adaptive cruise control on the freeway set at (let's be law-abiding) 65 mph. If there's a temporary construction zone where the posted limit drops to 55 mph, this feature recognizes the sign and slows the Escape accordingly. Clear of the zone, the preset speed is resumed. There's also some wiggle room — the driver can set the speed a few mph above the number on any signs and the system will comply.

FAQs

How much is a 2022 Ford Escape?

Prices range from \$25,555 to just above \$38k. See the pricing section below for more details.

Is the 2022 Ford Escape a good SUV?

First, we're going to split hairs here and call it more of a crossover than a true SUV with any meaningful off-road ability. Second, it's a good crossover, but not a great one. There are many rivals, any of which might be more attractive. Check out the review for a better picture.

Does the 2022 Ford Escape have all-wheel drive?

All-wheel drive is generally optional, with some exceptions. The gas-powered top Titanium trim has it as standard. It's optional in the hybrid Titanium. The plug-in hybrid versions don't offer it at all.

What is the MPG for a 2022 Ford Escape?

2022 Ford Escape city/highway fuel economy ratings range from 22/31 mpg to 44/37 mpg, depending on trim and equipment.

How much should a 2022 Ford Escape cost?

Used 2022 Ford Escape prices currently range from \$15,900 for the S Sport Utility 4D to \$20,900 for the Titanium Hybrid Sport Utility 4D when purchasing from a dealership, depending on a range of factors like equipment, mileage, and condition.

What's the cheapest Ford Escape?

The cheapest 2022 Ford Escape is the S Sport Utility 4D, with a Kelley Blue Book Fair Purchase Price of \$15,900.

Is the 2022 Ford Escape reliable?

The 2022 Ford Escape is part of the 4th-generation Escape, which our owners give an above-average reliability rating of 4 out of 5.

Action shot taken during the driver-side small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was maintained very well.

The frontal and side curtain airbags worked well together to keep the head from coming close to any stiff structure or outside objects that could cause injury.

The driver's space was maintained well, and risk of injuries to the dummy's legs and feet was low.

The rear passenger dummy's head approached the front seatback, which increases the risk of head injuries.

Rear passenger dummy injury values indicate a low risk of injury to the head or neck and chest. During the crash, the shoulder belt remained in an ideal position on the dummy's chest.

The rear passenger dummy's lap belt remained in the ideal position on the pelvis.

Driver head protection

The dummy's head moved downward past the side curtain airbag and struck the window sill of the driver door hard, while the head was in proximity to the intruding barrier. Although the barrier did not hit the dummy's head in this test, this near miss indicates that only slightly different crash circumstances could produce a direct hit to a person's head. The head protection is inadequate.

(1) Trim level(s): Titanium trim

Low-beam headlight type	LED reflector
High-beam headlight type	LED reflector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	A

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was fair in all 4 tests.

The low beams created some glare.

High beams

On the straightaway, visibility was good on the right side of the road and fair on the left side. On curves, visibility was fair in all 4 tests.

High-beam assist compensates for some limitations of this vehicle's low beams on both left curves and on both right curves.
