*"Excellent" - 3% of all cars we value meet this criteria. This car looks new and is in excellent mechanical condition. It has never had paint or bodywork and has an interior and body free of wear and visible defects. The car is rust-free and does not need reconditioning. Its clean engine compartment is free of fluid leaks. It also has a clean title history, has complete and verifiable service records.

Good Acceptable Marginal Poor

Small overlap front

The small overlap front evaluation consists of a driver-side and a passenger-side component.
If the results of the two evaluations differ, then the combined small overlap rating is equal to the lower rating.

Driver-side

Tested vehicle: **2025 Ram 1500 Big Horn Crew cab 4wd**
Rating applies to 2025-26 models

The Ram 1500 Crew Cab was redesigned for the 2019 model year. Beginning with 2025 models, changes were made to the steering column and driver-side airbag to improve occupant safety in driver-side small overlap crashes. Ratings are based on a test of a 2025 Ram 1500 conducted by Stellantis.

Overall driver-side evaluation	G

Rear passenger restraints and dummy kinematics

P

View of the vehicle after the crash showing the airbags and damage to the occupant compartment.

The rear passenger dummy's head remained a safe distance from the front seatback.

Rear passenger dummy injury values indicate a low risk of injury to the head or neck and a moderate risk of injury to the chest. During the crash, the shoulder belt moved too far upward toward the dummy's neck, compromising the effectiveness of the rear restraint system.

The rear passenger dummy's lap belt moved from the ideal position on the pelvis onto the abdomen, increasing the risk of abdominal injuries.

Headlights

Ratings are given for **2 different headlight variations** available on this vehicle.

(1) Trim level(s): Tungstun trim, RHO trim, Limited trim, Limited Longhorn trim

Low-beam headlight type	LED projector
High-beam headlight type	LED projector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	G

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was good on the left side of the road and fair on the right side. On curves, visibility was good on both right curves, fair on the sharp left curve and inadequate on the gradual left curve.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was good on both right curves and fair on both left curves.

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and on both left curves.

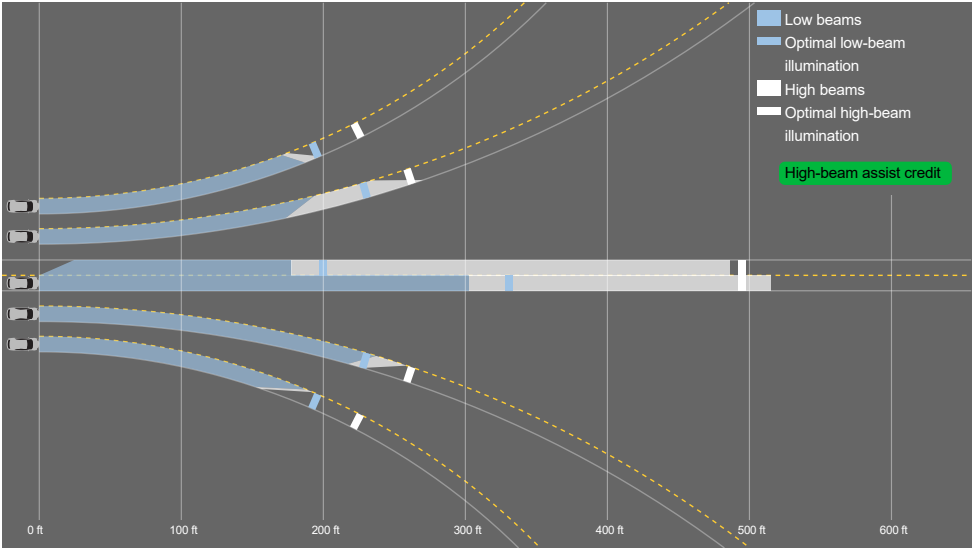

► Technical measurements for this test

(2) Trim level(s): Warlock trim, Tradesman trim, Big Horn trim, Laramie trim, Rebel trim

Low-beam headlight type	LED reflector
High-beam headlight type	LED reflector

Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	A

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was fair on both sides of the road. On curves, visibility was good on the gradual right curve, fair on the sharp left and sharp right curves, and inadequate on the gradual left curve.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on both sides of the road. On curves, visibility was fair on the gradual left and gradual right curves and inadequate on the sharp left and sharp right curves.

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and all 4 curves.
