2022 Ram 1500 Quad Cab Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2022 Ram 1500 Quad Cab Safety

Safety Features & Technology

- Six Standard Airbags**

All 2022 Ram 1500 pickups have six standard airbags, providing frontal- and side-impact occupant protection. The front airbags have adaptive damping. In other words, they automatically adjust for the size of the person and the severity of the crash.
- Forward Collision Warning with Active Braking**

If the Ram 1500 senses a frontal impact, this system pre-charges the brakes and provides audible and visual warnings to the driver. If the driver doesn't react, the Ram 1500 briefly taps its brakes as a warning. If the driver still doesn't respond, max braking is applied automatically to bring the Ram 1500 to a stop as rapidly as possible.
- Advanced Safety Group**

This thorough safety package is standard on several trims. In addition to adaptive cruise control (with stop, go, and hold) and blind-spot monitoring (with trailer coverage), the Advanced Safety Group includes a lane-departure warning and a rear cross-traffic alert.
