2024 Ram 1500 Quad Cab Review

By **Colin Ryan** ⓘ
Updated January 30, 2025

Pros

- Comfortable ride
- Respectable abilities
- Cabin stowage

Cons

- Not as much choice as some rivals

What's New?

- TRX Final Edition, Tradesman Warlock off-road package
- Diesel engine discontinued

One-third of the Big Three American trucks, the Ram 1500 pickup has its own skill set that could sway buyers away from Ford or General Motors. Our review staff and our owners' reviews are filled with praise for the Ram 1500, with the comfortable ride quality a common point of praise. And 88% of reviewers said they would recommend it to other buyers. Ram has created a superb machine in what is currently the truck's fifth generation, which debuted for 2019. Some buyers are fiercely loyal to the marque, and that's great. But we think nonpartisan customers should give this a good look as well.

2024 Ram 1500 Quad Cab Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2024 Ram 1500 Quad Cab Safety

Safety Features & Technology

2023 features shown. 2024 may differ.

Forward collision warning with automatic emergency braking

This is standard in the rival Toyota Tundra, as it should also be in the 2023 Ram 1500. But it's not even offered in the three lowest trims, only optional in the top TRX, though standard in the Rebel, Laramie, Longhorn, and Limited trims.

Blind-spot monitoring

This is at least optional in every new 2023 Ram 1500 truck. It also includes rear cross-traffic alert and trailer coverage.

Digital rearview mirror

Replacing the conventional rearview mirror with what is essentially a video screen, this option shows a clear image behind the truck unhindered by rear pillars, passengers' heads, or cargo.

Small overlap front

The small overlap front evaluation consists of a driver-side and a passenger-side component.
If the results of the two evaluations differ, then the combined small overlap rating is equal to the lower rating.

Driver-side

Tested vehicle: **2019 Ram 1500 Big Horn Quad Cab 2wd**
Rating applies to 2019-24 models built after July 2018

The Ram 1500 Quad Cab was redesigned for the 2019 model year. The earlier design remained in production for the 2019-20 model years and was called the Ram 1500 Classic Quad Cab. The ratings on this page do not apply to the Classic.

For the redesigned pickup beginning with 2019 models built after July 2018, the cab mounts to the vehicle frame at the C-pillars were strengthened to improve occupant protection in small overlap frontal crashes. (Information about when a specific vehicle was manufactured is on the certification label typically affixed to the car on the driver door or adjacent B-pillar.)

Driver-side small overlap frontal ratings are assigned by the Institute based on a test conducted by Fiat Chrysler.

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by these auto insurers and insurance associations.
