2023 Dodge Durango Review

By Eric Brandt ⓘ
Updated January 30, 2025

Pros

- Multiple V8 options
- Intuitive infotainment system

Cons

- Not much standard safety tech
- Subpar fuel economy

What's New?

- Standard heated seats
- Four new paint options
- Hellcat returns

The 2023 Dodge Durango has the spirit and performance of a muscle car in the form of a practical 3-row SUV. It offers a range of four robust engines, three of which are V8s, which are rare in this class. A diverse model range ensures a Durango for just about everyone in the market for a family SUV, whether you want just the basics, a premium interior, or 710 horsepower. It plays in a competitive field of [midsize 3-row SUVs](#), including the [Kia Telluride](#), [Ford Explorer](#), [Chevrolet Traverse](#), and [Honda Pilot](#).

2023 Dodge Durango Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

Driver restraints and dummy kinematics

The dummy’s face remained in contact with the frontal airbag, but its head still rolled around the left side of the steering wheel toward the intruding A-pillar. The side curtain airbag deployed but does not have sufficient forward coverage to protect the head from contact with forward side structure and outside objects. The side torso airbag deployed.

A

Action shot taken during the small overlap frontal crash test.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was not maintained well.

The dummy's head contacted the frontal airbag but then rolled around to the left side. The side curtain airbag does not extend far enough forward toward the A-pillar to protect the head from possible contact with forward side structure.

Parking brake pedal, door hinge pillar, and instrument panel intrusion was extensive and contributed to a high risk of injury to the left lower leg, a significant risk to the left foot, and a moderate risk to the left hip.

Moderate overlap front: original test

Tested vehicle: **2011 Jeep Grand Cherokee Laredo 4-door 4wd**

Rating applies to 2011-25 models

The Dodge Durango was redesigned for the 2011 model year. The vehicle is derived from the Jeep Grand Cherokee, which was also redesigned for 2011. The Durango has a longer wheelbase and overall length to accommodate three rows of seats. Frontal structure is essentially similar to that of the Grand Cherokee, and the seat belts and frontal airbags are identical. Frontal ratings are assigned by the Institute based on a test of a 2011 Jeep Grand Cherokee conducted by Chrysler Corporation.
