## 2017 Chevrolet Silverado 2500 HD Crew Cab Review

By Joe Tralongo

Updated November 25, 2019

### Pros

If you need more towing and hauling ability than a half-ton Silverado can offer, but you want to remain a GM loyalist, the 2017 Chevrolet Silverado HD with the new Duramax diesel engine is the perfect solution.

### Cons

If you need only the power, towing and fuel economy of diesel engine, you can get one in a Ram 1500, or in the Nissan Titan XD that straddles the fence between half-ton and quarter-ton pickups. Both the Ram HD and Ford Super Duty best the Silverado HD's 5th-wheel tow ratings.

### What's New?

The 2017 Chevrolet Silverado HD gets a vastly improved Duramax 6.6-liter diesel engine with a new air-induction system that helps boost both horsepower and torque. Teen Driver is added this year helping parents keep track of their kids' driving habits.

Feeling the sting of playing catch-up to Ford's Super Duty and Ram's HD trucks, Chevrolet has given its 2017 Silverado 2500 HD and 3500 HD a significant boost in power and ability. Thanks go to a greatly improved Duramax diesel engine that pumps out 445 horsepower and 910 lb-ft of torque. Conventional tow ratings vary depending on configuration, but max out around 18,100 pounds for the 2500 HD and 23,300 for the 3500 HD. However, when it comes to using a fifth-wheel, the Ford F-250 and F-350 Super Duty still triumph over the Chevy. All this goodness doesn't come cheap, with a fully decked-out Silverado 3500 HD easily pushing past \$70,000. In fairness, the same holds true for the competition.

2017 Chevrolet Silverado 2500 HD Crew Cab Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.
