2024 Chevrolet Silverado 1500 Crew Cab Review

By **Colin Ryan** ⓘ
Updated January 30, 2025

Pros
Strong towing ability
Plenty of choices
Useful trailering tech

Cons
Plays second fiddle to the F-150

What's New?
More standard equipment and options

Some people are just Chevy people. And when those people want a half-ton pickup, the first thing they'll consider is a new Silverado 1500. It seems the Chevrolet camp is well populated, because the Silverado is usually the second best-selling vehicle in the United States.

We know your next question, and the answer is the Ford F-150. In terms of abilities, the Silverado 1500 comes close but doesn't beat the F-150 in any particular aspect. Even so, it's capable of doing what the majority of buyers want their pickup to do. Not everyone needs to tow 7 tons around. For the Chevy faithful, the Silverado 1500 works just fine.

The all-electric Chevrolet Silverado EV is reviewed separately, as is the stronger Silverado HD.
