*"Excellent" - 3% of all cars we value meet this criteria. This car looks new and is in excellent mechanical condition. It has never had paint or bodywork and has an interior and body free of wear and visible defects. The car is rust-free and does not need reconditioning. Its clean engine compartment is free of fluid leaks. It also has a clean title history, has complete and verifiable service records.

2023 Ram 1500 Crew Cab Review

By **Colin Ryan**
Updated January 30, 2025

Pros

- Comfortable as well as capable
- Great engine choices
- Plenty of cabin storage

Cons

- Due for a mid-life revamp
- Rivals can tow more
- No Regular Cab version

What's New?

- Limited Elite Edition
- Digital driver display offered
- LED hitch light now standard

Why buy a new Ram 1500 instead of another half-ton pickup? In the end, it might come down to brand loyalty, since they're all highly capable and priced competitively. But the smooth way the Ram 1500 drives is definitely a plus point.

Rebel Pickup 4D 5 1/2 ft	$32,800	$38,600	$41,000
Limited Pickup 4D 5 1/2 ft	$33,300	$38,700	$40,900
Laramie Longhorn Pickup 4D 5 1/2 ft	$35,100	$39,600	$41,900
TRX Pickup 4D 5 1/2 ft	$62,100	$66,800	$70,700

Values above are based on "Good" condition vehicles ⓘ. Estimated Trade-In Values range from about $21,700 to $62,100 depending on vehicle style. Estimated Private Party Values range from about $25,400 to $66,800 depending on vehicle style. Values and prices are based on national averages and typical mileage for this model, but they can vary greatly according to mileage, condition, location, and other factors. Valid through 10/8/2026.

Trade-In Value

Trade-In Value is the amount you can expect to receive this week when trading in your vehicle at a dealership.

Private Party Value

Private Party Value is the fair price you can expect when selling your car to an individual, not to a dealer.

Fair Purchase Price

Fair Purchase Price shows what others in your area are actually paying for this vehicle.

*Depreciation for the last 12 months of the private party resale value.

2023 Ram 1500 Crew Cab Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2023 Ram 1500 Crew Cab Safety

Safety Features & Technology

Forward collision warning with automatic emergency braking

This is standard in the rival Toyota Tundra, as it should also be in the 2023 Ram 1500. But it's not even offered in the three lowest trims, only optional in the top TRX, though standard in the Rebel, Laramie, Longhorn, and Limited trims.

Blind-spot monitoring

This is at least optional in every new 2023 Ram 1500 truck. It also includes rear cross-traffic alert and trailer coverage.

Digital rearview mirror

Replacing the conventional rearview mirror with what is essentially a video screen, this option shows a clear image behind the truck unhindered by rear pillars, passengers' heads, or cargo.

FAQs

How much can a 2023 Ram 1500 tow?

A Tradesman Quad Cab model with the 5.7-liter gasoline V8 and rear-wheel drive can tow up to 12,750 pounds. That's the maximum for the 2023 Ram 1500 range. With the diesel engine under that same vehicle's hood, the limit is a still-respectable 12,560 pounds.

How much is a 2023 Ram 1500?

The most affordable 2023 Ram 1500 is the Tradesman Quad Cab with rear-wheel drive and the gasoline V6. Its Manufacturer's Suggested Retail Price (MSRP) is $36,820. The priciest version is the TRX, starting at $79,355. These figures are before destination charges and options.

How much does a 2023 Ram 1500 weigh?

The 2023 Ram 1500 ranges from roughly 4,770 pounds to over 5,450 pounds, depending on configuration. The Ram TRX model weighs in at 6,430 pounds.

Is the 2023 Ram 1500 Crew Cab a good vehicle?

Yes, the 2023 Ram 1500 Crew Cab is a good car, as reflected by its above-average Kelley Blue Book rating of 4.5 out of 5.

What is the MPG for a 2023 Ram 1500 Crew Cab?

2023 Ram 1500 Crew Cab city/highway fuel economy ratings range from 10/14 mpg to 17/22 mpg, depending on trim and equipment.

How much should a 2023 Ram 1500 Crew Cab cost?

Used 2023 Ram 1500 Crew Cab prices currently range from $27,000 for the Tradesman Pickup 4D 6 1/3 ft to $70,700 for the TRX Pickup 4D 5 1/2 ft when purchasing from a dealership, depending on a range of factors like equipment, mileage, and condition.

What's the cheapest Ram 1500 Crew Cab?

The cheapest 2023 Ram 1500 Crew Cab is the Tradesman Pickup 4D 6 1/3 ft, with a Kelley Blue Book Fair Purchase Price of $27,000.

Is the 2023 Ram 1500 Crew Cab reliable?

The 2023 Ram 1500 Crew Cab is part of the 2nd-generation 1500 Crew Cab, which our owners give an above-average reliability rating of 4.4 out of 5.

P	Poor	

Some ratings use a scale of Poor to Good. Others range from Basic to Superior.

Small overlap front: driver-side

Tested vehicle: **2019 Ram 1500 Big Horn Crew Cab 2wd**
Rating applies to 2019-24 models built after July 2018

The Ram 1500 Crew Cab was redesigned for the 2019 model year. The earlier design remained in production for the 2019-20 model years and was called the Ram 1500 Classic Crew Cab. The ratings on this page do not apply to the Classic.

For the redesigned pickup beginning with 2019 models built after July 2018, the cab mounts to the vehicle frame at the C-pillars were strengthened to improve occupant protection in small overlap frontal crashes. (Information about when a specific vehicle was manufactured is on the certification label typically affixed to the car on the driver door or adjacent B-pillar.)

Two tests of the Ram 1500 Crew Cab were conducted by the Institute; vehicle specifications for the two trucks were identical. In the first test, Fiat Chrysler identified possible prior dummy ankle damage that may have caused elevated injury measures on the

left lower leg. In the second test with a new ankle assembly installed, there were also indications of elevated left lower leg injury. Therefore, the ratings are based on combined results from both tests.

Overall evaluation	**G**
Structure and safety cage	**G**
Driver injury measures	
Head/neck	**G**
Chest	**G**
Hip/thigh	**G**
Lower leg/foot	**M**
Driver restraints and dummy kinematics	**G**

Action shot taken during the second of two driver-side small overlap frontal crash tests.

The dummy's position in relation to the door frame, steering wheel, and instrument panel after the crash test indicates that the driver's survival space was maintained well (second test shown).

The frontal and side curtain airbags worked well together to keep the head from coming close to any stiff structure or outside objects that could cause injury (second test shown).

Forces on the left lower leg were high enough to indicate a likely risk of injury in the first test (shown) and a moderate risk in the second test.

▶ Technical measurements for this test

Small overlap front: passenger-side

Tested vehicle: **2019 Ram1500 Tradesman Crew Cab 2wd**

Rating applies to 2019-24 models built after July 2018

The Ram 1500 Crew Cab was redesigned for the 2019 model year. The earlier design remained in production for the 2019-20 model years and was called the Ram 1500 Classic Crew Cab. The ratings on this page do not apply to the Classic.

For the redesigned pickup beginning with 2019 models built after July 2018, the cab mounts to the vehicle frame at the C-pillars were strengthened to improve occupant protection in small overlap frontal crashes. (Information about when a specific vehicle was manufactured is on the certification label typically affixed to the car on the driver door or adjacent B-pillar.)

Hip/thigh	**G**
Lower leg/foot	**G**
Driver restraints and dummy kinematics	**G**

Action shot taken during the passenger-side small overlap frontal crash test.

The dummy's position in relation to the door frame and dashboard after the crash test indicates that the passenger’s survival space was maintained reasonably well.

The frontal and side curtain airbags worked well together to keep the head from coming close to any stiff structure or outside objects that could cause injury.

Despite intrusion of the toepan and dashboard, risk of injuries to the dummy's legs and feet was low.

▶ Technical measurements for this test

Moderate overlap front: original test

Tested vehicle: **2019 Ram 1500 Big Horn Crew Cab 2wd**

Rating applies to 2019-24 models

The Ram 1500 Crew Cab was redesigned for the 2019 model year. The earlier design remained in production for the 2019-20 model years and was called the Ram 1500 Classic Crew Cab. The ratings on this page do not apply to the Classic.

Moderate overlap frontal ratings are assigned by the Institute based on a test conducted by Fiat Chrysler.

Rear passenger restraints and dummy kinematics M

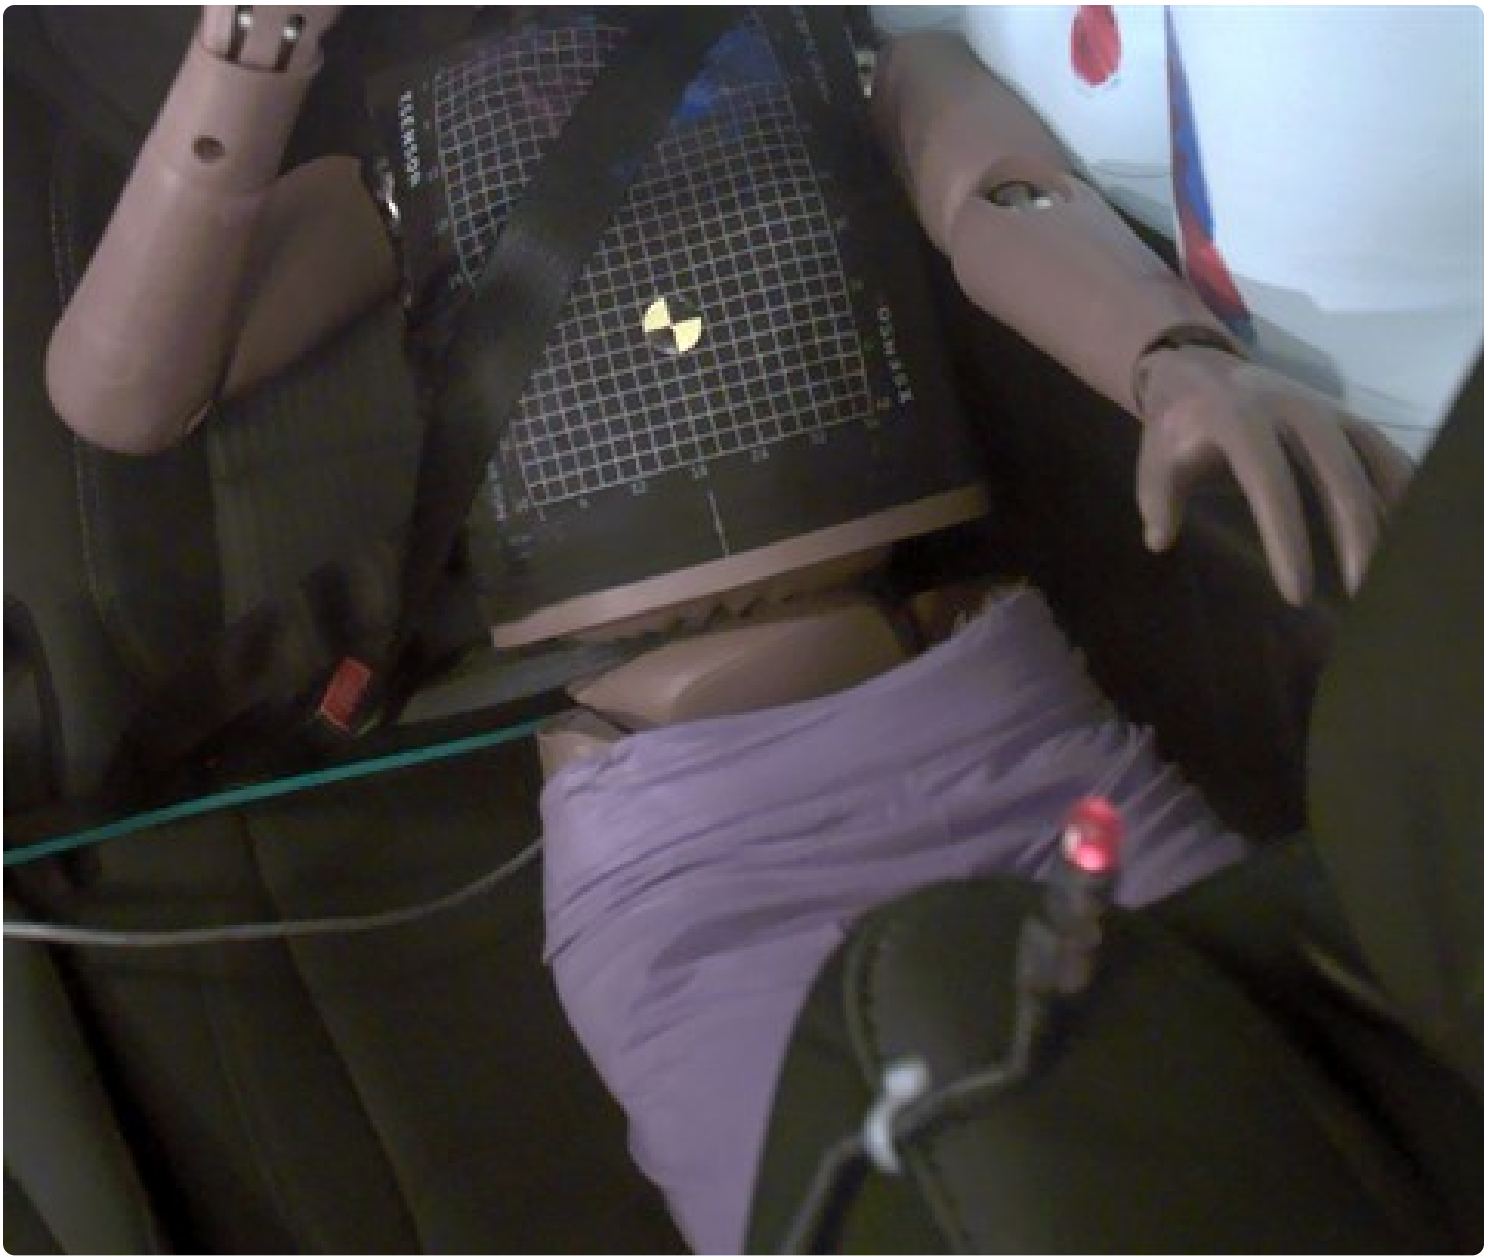

View of the vehicle after the crash showing the airbags and damage to the occupant compartment.

The rear passenger dummy's head remained a safe distance from the front seatback.

Rear passenger dummy injury values indicate a likely risk of injury to the head or neck and chest. During the crash, the shoulder belt remained in an ideal position on the dummy’s chest.

The rear passenger dummy's lap belt moved from the ideal position on the pelvis onto the abdomen, increasing the risk of abdominal injuries.

Headlights

Ratings are given for **5 different headlight variations** available on this vehicle.

(1) Trim level(s): Longhorn trim, Limited trim, TRX trim

Low-beam headlight type	LED projector
High-beam headlight type	LED projector
Curve-adaptive?	Yes
High-beam assist?	Yes
Overall rating	**G**

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was fair on both sides of the road. On curves, visibility was good on both right curves, fair on the sharp left curve and inadequate on the gradual left curve.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on the right side of the road and fair on the left side. On curves, visibility was good on the gradual left and both right curves and fair on the sharp left curve.

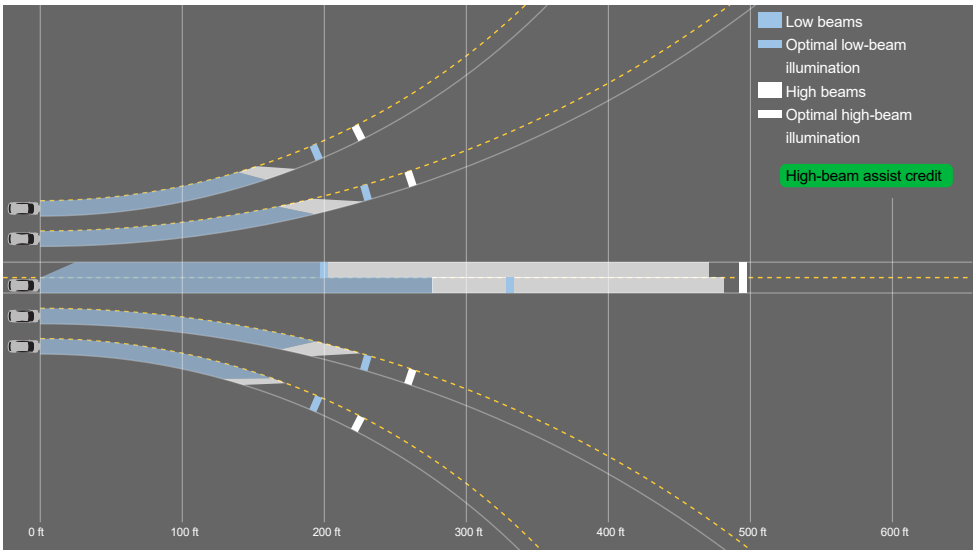

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and on both left curves.

▶ Technical measurements for this test

(2) Trim level(s): Laramie trim equipped with Advanced Safety Group package

Low-beam headlight type	Halogen reflector
High-beam headlight type	Halogen reflector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	**A**

Distance at which headlights provide at least 5 lux illumination:

Low beams
On the straightaway, visibility was good on the left side of the road and fair on the right side. On curves, visibility was inadequate in all 4 tests.

The low beams never exceeded glare limits.

High beams
On the straightaway, visibility was good on both sides of the road. On curves, visibility was inadequate in all 4 tests.

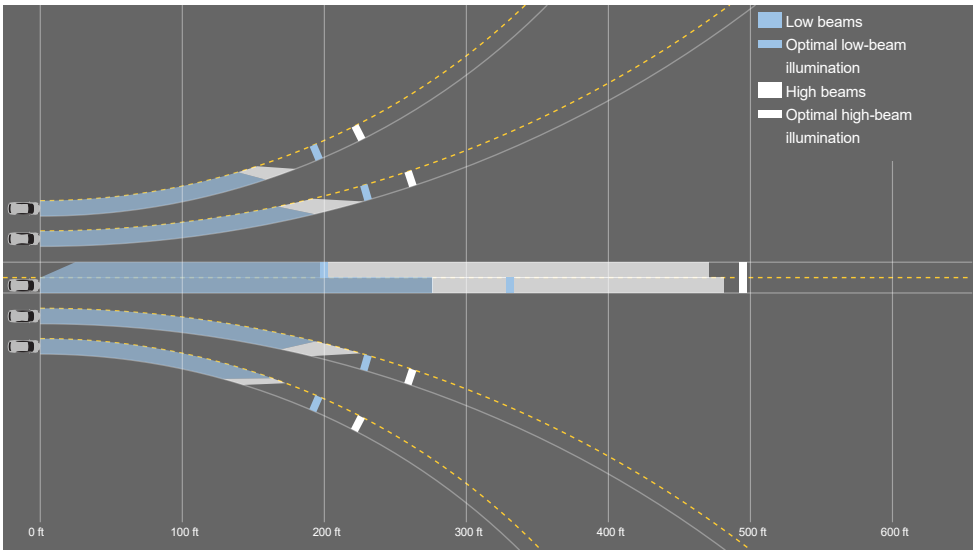

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway, on both left curves and on both right curves.

▶ Technical measurements for this test

(3) Trim level(s): Tradesman trim, Big Horn trim, Lone Star trim, Laramie trim

Low-beam headlight type	Halogen reflector
High-beam headlight type	Halogen reflector
Curve-adaptive?	No
High-beam assist?	No
Overall rating	**M**

Distance at which headlights provide at least 5 lux illumination:

Low beams
On the straightaway, visibility was good on the left side of the road and fair on the right side. On curves, visibility was inadequate in all 4 tests.

The low beams never exceeded glare limits.

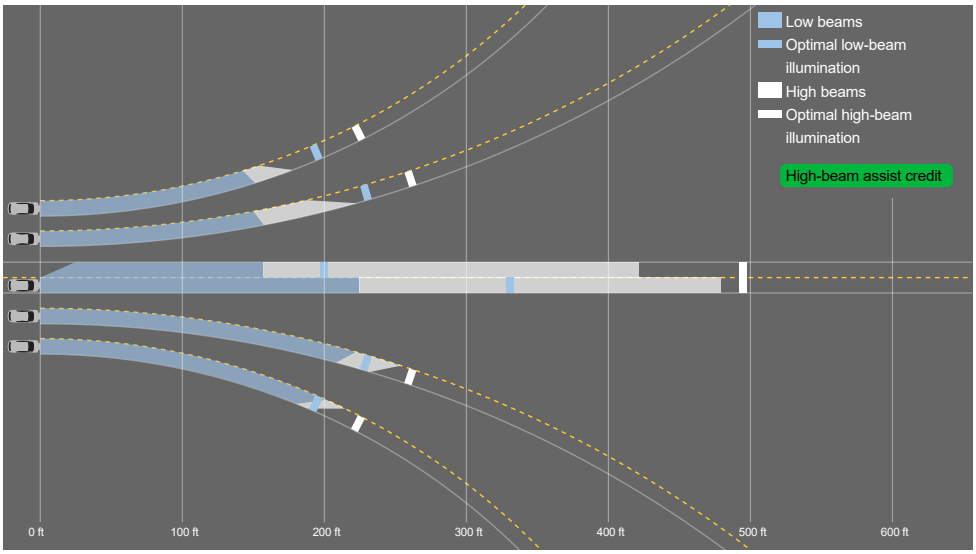

High beams
On the straightaway, visibility was good on both sides of the road. On curves, visibility was inadequate in all 4 tests.

▶ Technical measurements for this test

(4) Trim level(s): Laramie trim equipped with Laramie 1 Equipment Group package, Laramie trim equipped with Laramie 2 Equipment Group package, Rebel trim equipped with Advanced Safety Group package, Laramie trim equipped with Laramie B Equipment Group package

Low-beam headlight type	LED reflector
High-beam headlight type	LED reflector
Curve-adaptive?	No
High-beam assist?	Yes
Overall rating	**M**

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was fair on the left side of the road and inadequate on the right side. On curves, visibility was good on the sharp right curve, fair on the gradual right curve and inadequate on both left curves.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on the right side of the road and fair on the left side. On curves, visibility was fair on both right curves and inadequate on both left curves.

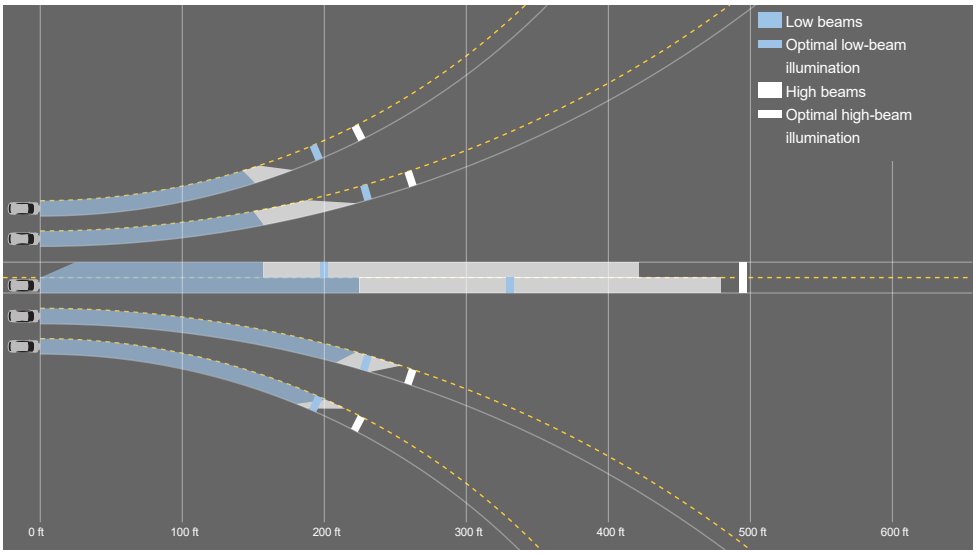

High-beam assist compensates for some limitations of this vehicle's low beams on the straightaway and all 4 curves.

▶ Technical measurements for this test

(5) Trim level(s): Big Horn trim equipped with Premium Lighting Group package, Rebel trim, Lonestar trim equipped with Built-to-Serve Edition package, Lone Star trim equipped with Premium Lighting Group package, Big Horn trim equipped with Built-to-Serve Edition package

Low-beam headlight type	LED reflector
High-beam headlight type	LED reflector
Curve-adaptive?	No
High-beam assist?	No
Overall rating	**M**

Distance at which headlights provide at least 5 lux illumination:

Low beams

On the straightaway, visibility was fair on the left side of the road and inadequate on the right side. On curves, visibility was good on the sharp right curve, fair on the gradual right curve and inadequate on both left curves.

The low beams never exceeded glare limits.

High beams

On the straightaway, visibility was good on the right side of the road and fair on the left side. On curves, visibility was fair on both right curves and inadequate on both left curves.

Child seat anchors

Rating applies to 2019-27 models

Overall evaluation	**M**
Vehicle trim	Limited Crew Cab
Seat type	leather

This vehicle has 3 rear seating positions with complete child seat attachment (LATCH) hardware.

G Good

A Acceptable

M Marginal

P Poor

☐ Seating positions that rely on borrowed lower anchors or have only a tether anchor available are not rated.

Tether anchor

Lower anchors

Lower anchor(s) can be borrowed from adjacent positions(s)

Details by seating position

1 **Tether anchor**

hard-to-find location

other hardware could be confused for anchor

Lower anchors

not too deep in seat

not too much force needed to attach

easy to maneuver around anchors

2 **Tether anchor**

hard-to-find location

other hardware could be confused for anchor

Lower anchors

too deep in seat

not too much force needed to attach

easy to maneuver around anchors

3 **Tether anchor**

hard-to-find location

other hardware could be confused for anchor

Lower anchors

No hardware available

not too deep in seat

not too much force needed to attach

easy to maneuver around anchors

Making roads and vehicles safer for everyone.

The **Insurance Institute for Highway Safety (IIHS)** is an independent, nonprofit scientific and educational organization dedicated to reducing deaths, injuries and property damage from motor vehicle crashes through research and evaluation and through education of consumers, policymakers and safety professionals.

The **Highway Loss Data Institute (HLDI)** shares and supports this mission through scientific studies of insurance data representing the human and economic losses resulting from the ownership and operation of different types of vehicles and by publishing insurance loss results by vehicle make and model.

Both organizations are wholly supported by these auto insurers and insurance associations.
