2023 Ram 2500 Crew Cab Review

By **Colin Ryan**
Updated January 30, 2025

Pros

- Impressive work capabilities
- Nicer to drive than a typical truck
- Luxurious upper trims

Cons

- Forward collision warning is optional

What's New?

- Digital instrument cluster available
- Camera system upgrades
- New Trailer Reverse steering system

2023 Ram 2500 Crew Cab Depreciation

Annual Depreciation is an estimation of what your vehicle's value might be over time based on an average of similar vehicles. Estimations are calculated by comparing Kelley Blue Book Private Party Values of vehicles similar to yours over time, as well as forecasts from Manheim Auction data comparing current and projected auction values against current Kelley Blue Book Private Party and Trade-In Values. This is not a guarantee of actual depreciation. Local weather conditions, market factors and driver performance will also impact your vehicle's actual depreciation.

2023 Ram 2500 Crew Cab Safety

Safety Features & Technology

Forward collision warning with automatic emergency braking

We'd prefer to see this as standard in every new Ram HD pickup, but at least it's available as an option across the board.

Blind-spot monitoring with cross-path detection

Optional for most of the 2023 Ram HD lineup, this finally becomes standard in the top Limited trim. Cross-path detection warns drivers of vehicles approaching at right angles while reversing.

Trailer Surround View system

This optional feature gives drivers a 360-degree view around both the truck and the trailer. It takes a lot of the stress out of maneuvering.
